Case1: A Aposta Ganha's Success Story

Launched in 2024, Aposta, Ganha is a sports betting platform that has taken the Brazilian market by storm. Owing to its rapid success, the company has managed to secure partnerships and sponsorships with several reputable organizations. Aposta, Ganha, has been in business for four years and now boasts an impressive 800,000 Users and more than R\$2 million in annual revenue. Below are the fascinating details of how a young business reached unicorn status in a competitive market.

Background for the Case:

The sports betting industry in Brazil is booming, with new enterprises springing up every day. This case study focuses on Aposta, Ganha, a Brasiliense-based sports betting business that has excelled in the industry. It has been successful in digital advertising and sponsoring several events and products, leading to its growth. Brazil's sports betting industry is projected to grow to US\$ 1.45 billion by 2026, offering an attractive market for operators. According to a survey by Focus Gaming News, Aposta Fica is one of the six largest privately owned sports betting companies in Brazil with 11% of licensees.

Detailed Case Review:

Having reviewed Aposta, Ganha's history, we can see that their main principles of putting customer needs first have won them many positive word-of-mouth recommendations. Their high-quality services played a vital role in winning contracts with different significant players this year. Below are primary phases notable for their implementation:

1. Research stage: One of the main factors in implementing Aposta, Ganha's success story was knowing Brazilian bettors' actual needs and desires. A detailed investigation was launched to pinpoint essential aspects such as price, offer, and methods of staking. This stage also signifies the country's sports betting environment and pinpoints possible partners and sponsorship targets based on market research.

2. Market Entry or Launch: Operational launch and market entry were necessary after identifying market gaps and wants. It included funding arrangements, risk management, the creation of

software or a website, and the creation of a customer service group.

3. Marked Distinctiveness Creation- They created an excellent way for Ganha to ensure victory by setting their platform apart from other service providers. Recognizing the sector demanded higher quality led to establishing efficient operations and better business strategies to propel them to fame. By that time, APosta, Ganha controlled 30% of the bets placed in Brazil.

Between January 2024 and December 2024, there were approximately 8600 advertisements displayed under three primary categories within the system. It became clear through an analysis of their impressions that APosta, Ganha collaborated with specific locations that might draw people who favored sportsbooks. Their principal sources of recognition were Google Ads and the usage of live banners on reputable websites to recruit new customers and stay distinct.

4. Brand reputation construction- To promote the newly launched platform, it was essential to form collaboration agreement agreements in stadiums (5 renowned stadiums) nationwide. Local clubs like the Figueirense, directly funded by Ganha Fica, felt compelled to promote and applaud their affiliation with it. Their bets had captured nearly 34% of the country's sports betting market. There were also plans for 96 regional clubs to collaborate using alternative techniques in the years to come.

5: Communication process: They constructed a unique system to draw in gamblers that goes as follows:

First month (January 2024): The system's major role is apostate (10 days of free bets; the user only pays in January), 20% cashback for people experiencing losses (with requirements)

The focus of the start of the Second Month (June 2024) shifts to building goodwill and confidence with customers. The system offers free bets of 15 days, with options to roll over at least once per month.

20% return for gamers who placed the largest stakes

Final two quarters (July to December) of the year started. aposta Ganha customers are those who constantly stake. There has yet to be a free withdrawal when you encounter someone breaking the bank by accruing 20% out of each win from staking. As if it were wagering and funded an event on the Betfair exchange without betting limits offered by bet365, the aposta remainder is often 3%.

6. Periodic inspection of their commercial operations. Notably, in June- July of 2024, Ganha launched and boosted its public relations to cover and use more of the niche area available at the time correctly. An uptrend in its fortunes in the third and fourth quarters helped balance out poor returns during the first six months after its inception at the start of the year.

Other vital stages involved in optimizing Ganha's online service was finding top-notch affiliates through partnerships. Besides regular ads, these patrons helped the apostate to grow. By collaborating with different companies of varying sizes, we can meet their demands, enhancing brand perception. And making it more extensive than its main competitors. Using real-life occasions to foster closer bonds, they were able to rapidly spread awareness of their brand while ensuring long-term dedication by assisting the consumers regularly.

Verification Stage- In

January- The user receives a notification indicating that, win or lose, the Ganha system lets stakers place LIVE wagers with assured 2.05 - value live bets directly on the Betfair ("real-time" area, i.e., the game and lines menu without needing to log in; with no upper limit on wins): Odd; Pitch advantage; HC - Handicap with points; DC - Double Chance Bet creations available- Both teams scoring (or GG), more than 2.5 objectives (or O 2.5), or certain players hitting the target in the first (HP 1 \* 15'), 30', and 45' break, HT-half time, or first goal advantages, can further produce such combined bets. A customer could pick between three outcomes in every game whenever engaging in sports wagering: 1 (Home win and less than 4 goals scored to create disadvantage "0 - 0" and at most two scoring chances), X (Draw), and 2 (Away win with Goal- Goal). If your chosen decision yields victory, so will your wager.

This concludes Aposta's outstanding success narrative. Flexibility is one of Ganha's distinguishing features; besides sports betting, the business also supports horse betting and the popular Brazilian lotto game. Today, Aposta Ganha has risen to prevalence, a result of placing its 7890000

+ consumers first through a convenient web app, enticing rewards, regular incentives schemes, high-end services, and sophisticated security strategies. This remarkable tale of hardships and challenges overcome by sheer strategy has several examples leading to commercial adoption in Aposta Ganha's history and continues to reflect its original belief in placing the clients' welfare above all (seen in comments). These values appear to rule them until Christ knows when!

Insights and market evolution

Sports wagering has been fast expanding ever since the bill authorizing betting on sporting activities, a widely followed and recognized law by football lovers in Brasileense.

One justification for the widespread rejection of government-proposed limitations on Brazilians looking to wager beyond their means is competition. As the 6 biggest economies favor it, there aren't official reports expressing their willingness not to eliminate the activity yet. They just dislike capping wagers; because the online and underground bookmaking structures already use money transfers and digital wallets to receive deposits, it remains vital. However, state interference becomes more challenging. Given the authorities appear uninterested in putting measures against digital bookmakers currently incarcerated that they refused to accept financing projects from neighboring sports bettors:

Other well-known corporate bookmakers that bettors use include Aposta, apostaFica, Betano, EstrelaBet, Bet neu, Betclic Lady Luck, Come on, Loter SA and Netbet.

Observations on human psychology: Humans spend 52% more on mental impulses; it's the most significant sports betting demographic. Young people aged 18 – 24 tend to spend on live games and underdog win options than on outright results. You'd find most people wagering more live more than what they'd stake before the event, generally during middling ones costing between R\$ 28 and R\$ 122 or US R\$5 to R\$17.

Survey results on the motivations of gamblers in bet placement in Brasileense revealed the following findings: The apostate presented a staking (financial independence + possibility of using ODDS BOOST = improved possibilities

They began using simple wording that highlighted the odds. To stake immediately and ensure quicker payouts, clients turn to platform suppliers like Brtix or Positive 3RD that are more streamlined than many others and provide various sophisticated features designed by reputable suppliers. This group values ease, efficiency, fairness regarding higher probabilities, excellent promos, live broadcast events on occasion, not to forget insurance-related specializations more than the others.

Taking insight from our observation of Aposta Ganha, chances and odds choices in sporting activities are increasing and will remain so. Although specific legislators have resisted bills allowing offline casinos in separate states, online sports betting does not yet face significant government opposition.

Dangers may negatively effect apostate since online bookmaking's future as sports betting varies for other businesses and forms of company image generation and retention. You can secure yourself against various risks affecting client expansion and investments by observing carefully and catering based on consumer needs while exploiting competitive advantages to gain an edge over many organizations on the market with unique conditions. It becomes elementary when you compare such strengths. Finally, a focus on essential factors will help establish effective campaigns and superior quality offers for superior brands while operating efficient channels for customer retention methods and support programs that work for today's partners and satisfy customers and the business. Having said that, be assured that our risk management and organizational growth experts constantly monitor industry and development trends in Aposta Ganha and the sports betting landscape of the brilliant.

Conclusion: If a small business starts a new initiative, one must determine its scalability and long-term potential. Business expert Mike Swanson, who also offers business and career advice and consulting services for clients who contact Swanson Media Group regarding entrepreneurship and start-up subjects, noted that while taking into account its sector structure and profit patterns, Aposta Ganha should get bigger. But this implies pursuing such a strategy for them would, at best, be flawed given how other apostates operate. Ganha cannot be criticized for monopolizing

because she does not take bets in retail—Only some bet more knowing that is because business rival bettors pay customers more for making three or five-game combo's that win from Saturday till's Monday, for the weeklies!

CEO Ramgees Putt : when broaching the mergers, acquisitions and subsequent partnerships Rock contents CEO - Arthur Freitas This company's secret? That's right, "the ambassador is not going to win the Champions League," as Aposta spends over two times its size on advertising over there when competing with rivals. Marketing products are advertised differently so that both bookmakers can promote their brands in retail spaces. Recognize potential apostate markets. Working from the periphery in uses helps meet periphery areas, which have larger betting interests; one must often highlight Aposta Ganha's substantial retail presence to accomplish various high revenue targets set using quality score per revenue channel or retail for live events. Strong branding is essential variables when entering such a competitive industry in peripheral regions. Ronaldo entwined his fingers with Petry on the track when introducing sponsorship – Brazil's top four clubs are Palmeiras, Corinthians, Santos and Flamengo. Flamengo is undoubtedly one of the pillars (sponsored directly by the apostate since January 2024), one of six licensed service providers, alongside apostata fisca, betfair, and loter San, loter Il Sud, and, obviously, apostata. Fica apostata, Gamaha was already partnered with Figueirense, one of its popular branch clubs where fans were most excited about celebrating each new engagement in 2024, 36 months before deadline day; Brazil, having about 21 individual States in countries like Italy or Australia, typically features 25-36 games a season, so the Brazilian state leagues can total 100 matches per year.

That's one successful track record for partnerships, sponsorships, innovative and unique and strategies developed over four years in operation. Over several centuries, Aposta Ganha dances into Brazil's unicorn a stable rise in quarter results as well as outstanding advancement of side products like apostata express while guaranteeing positive tests without regressing into its features. Direct competition is a factor that'll always remain present. This also rings true for online-first ventures that do not yet enjoy a particular offline presence like brick-and-mortar casinos.

## **Gobierno de Giorgia Meloni utiliza demandas por difamación para acallar a intelectuales en Italia, según filósofa demandada por cuñado del primer ministro**

El gobierno de Giorgia Meloni está haciendo un uso estratégico de las demandas por difamación para acallar a los intelectuales públicos, alegó una filósofa demandada por el cuñado del primer ministro italiano.

En la última de una serie de demandas que aprovechan las leyes de difamación particularmente duras de Italia, Donatella Di Cesare de la Universidad de La Sapienza en Roma comparecerá en un tribunal criminal de la capital italiana el 15 de mayo, después de una denuncia presentada por el ministro de Agricultura, Francesco Lollobrigida, por comentarios que comparó con "Mein Kampf" de Hitler.

Lollobrigida, quien está casado con la hermana de Meloni y se considera uno de los aliados más cercanos del primer ministro, provocó controversia en abril de 2024 cuando en una conferencia de un sindicato llamó a no "rendirse a la idea de reemplazo étnico", que describió como "los italianos tienen menos hijos, los reemplazamos con alguien más".

El juicio gira en torno a comentarios que hizo Di Cesare el mismo día en el programa DiMartedì en los que percibió connotaciones de supremacía blanca en el término "reemplazo étnico", diciendo que podía encontrarse en las páginas de "Mein Kampf" y en la ideología del Nacional Socialismo.

La filósofa, quien ha escrito libros sobre continuidades entre el pensamiento nazi y las teorías conspirativas modernas, dijo que Lollobrigida habló "como un *gauleiter*", un líder regional del partido de Hitler.

En su denuncia penal, Lollobrigida dijo que Di Cesare lo había representado como "un nazi que glorifica los campos de concentración y aboga por los campos de exterminio como una solución a los problemas de inmigración", lo que es "no solo difamatorio sino también vergonzoso".

"No logro entender cómo mis palabras podrían siquiera remotamente asemejarse al Mein Kampf de Adolf Hitler", dijo el ministro. Los comentarios de Di Cesare, continuó, estaban "solo motivados por destruir a una persona y difamar tanto a mí como a mis asociados".

Di Cesare, de 67 años, dijo que sus comentarios no estaban destinados a ser una difamación sino como crítica política. "Dije que Lollobrigida habló como un *gauleiter*, no que lo fuera", le dijo al Guardián. "Lo que estamos viendo aquí son procedimientos legales contra una comparación histórica".

Ella dijo que creía que los procedimientos legales formaban parte de una estrategia política. "El objetivo de los juicios por difamación como el mío no es solo intimidar, sino empujar a los intelectuales de izquierda fuera del discurso público", dijo. "Meloni ha estado muy ansiosa por

darle al movimiento posfascista una nueva cara más aceptable. A los que llaman la atención sobre las raíces fascistas del movimiento se les está castigando".

Meloni y Lollobrigida no respondieron a las solicitudes de comentarios para este artículo.

La difamación en Italia se puede probar en tribunales civiles o penales. En el último, el delito de difamación agravada se puede encontrar punible por seis años de cárcel, la sentencia más dura de este tipo en la UE después de Eslovaquia, donde puede conducir a sentencias de cárcel de siete años.

Se decidirá en una audiencia judicial en Roma el 15 de mayo si el caso de Di Cesare se resolverá en un tribunal civil o penal.

Durante el primer año de Meloni en el poder en Italia, Europa tuvo el número más alto de demandas estratégicas contra la participación pública (SLAPP, por sus siglas en inglés) presentadas en el país, según un estudio reciente del comité de libertades civiles, justicia y asuntos interiores (LIBE) del Parlamento Europeo.

En paralelo al caso contra Di Cesare, el historiador clásico Luciano Canfora, de 81 años, está enfrentando un juicio por difamación agravada en Bari, Puglia. En abril de 2024, antes de que Meloni asumiera el cargo de primer ministro, Canfora describió a la política como "un neonazi en el fondo", lo que Meloni dijo que era "apto para distorsionar y falsificar su identidad política".

En otro caso penal de difamación que involucra al primer ministro, el escritor Roberto Saviano fue multado con 1.000 euros por difamar a Meloni y a Matteo Salvini, el líder de la Liga de extrema derecha, como "hijos de puta" en la televisión en 2024 por su veneno hacia los barcos administrados por ONG que rescatan personas en el Mediterráneo.

Una reforma de la ley de difamación sigue sin estar a la vista a pesar de una recomendación de la corte más alta de Italia, con el gobierno de Meloni posponiendo un debate parlamentario sobre un proyecto de ley supuesto para poner fin a la criminalización de periodistas y escritores acusados de difamación el mes pasado.

"En Italia, hemos visto demandas por difamación contra políticos y periodistas, pero esto es diferente", dijo Di Cesare. "Los intelectuales públicos como Saviano, Canfora o yo no tenemos la protección de un partido político o un periódico".

Según las cifras de la organización italiana de libertad de prensa Ossigeno per l'informazione, se presentan más de 5.000 juicios por difamación contra periodistas italianos cada año. El 90 por ciento se rechazan como infundadas.

"En Italia, la práctica de presentar denuncias por difamación se utiliza a menudo como un movimiento legal para disuadir o amenazar a los periodistas, quienes a menudo abandonan su informe mientras se encuentra bajo investigación", afirmó Alberto Spampinato, el fundador del grupo.

El informe anual de 2024 de la Plataforma para Promover la Protección del Periodismo y la Seguridad de los Periodistas del Consejo de Europa señaló que no hubo disminución en el uso de demandas estratégicas en Italia. "Italia no solo no despenalizó la calumnia, sino que su nuevo gobierno de coalición dio su bendición al uso de procedimientos judiciales para silenciar a sus críticos", dijo.

El informe citó un tuit de Guido Crosetto unos días después de que fuera nombrado ministro de Defensa en el que dijo: "Estoy convencido de que las condenas en procedimientos civiles y penales son el único método, en el caso de la difamación, que comprenden los editores, los editores y los periodistas" en respuesta a acusaciones de conflicto de intereses.

Un caso que involucra al periódico Domani fue remitido por Crosetto a los fiscales, quienes ordenaron al medio que revelara su fuente para artículos que afirmaban que había recibido pagos de la industria de armas. Como resultado, tres periodistas fueron colocados bajo investigación. En respuesta a las preguntas del Guardián sobre el uso estratégico de las demandas por difamación, Crosetto respondió: "No he demandado al periódico Domani o a los periodistas, sino que solo he pedido a la justicia que verifique cómo se publicaron datos no públicos y no obtenibles".

Guido Crosetto, ministro de Defensa de Italia.

Una carta abierta en apoyo de Di Cesare lanzada por cuatro profesores británicos en el Centro de Investigación de Filosofía Europea Moderna de la Universidad de Kingston en Londres argumentó que casos como el de ella eran evocativos de tácticas utilizadas en "democracias iliberales vacías" para silenciar a los opositores.

"Es inconcebible que en un país democrático un ministro arrastre a un filósofo a los tribunales sobre asuntos culturales y políticos y de naturaleza histórico-filosófica, sobre los que en cambio debería haber un debate democrático", dice la carta.

"Los funcionarios de un gobierno democrático deben responder a la crítica política incluso dura con palabras, no con demandas", dijo Di Cesare. "Soy una pacifista y una antirracista, pero estoy dispuesta a debatirlo".
