O que oferece o A7 Poker?

The M-Concept was introduced by Dan Harrington in his book "Harrington on Hold'em – Volume II: The Endgame". Dan Harrington is a well known professional poker player and two times World Series of Poker bracelet winner, including winning the WSOP Main Event of 1995. The M-Concept/Zone System let's you determine the status you're in when playing a poker tournament. According to your calculated (effective) M, you can find yourself in one of the predefined zones, where different strategies apply.

Theoretically, the M gives you an estimation of how many orbits you will last without contributing any chips into a pot, except for paying the necessary blinds and antes.

The poker M-Calculator below the content shows you exactly where you stand in a tourney, according to several factors and the results display your M, your effective M (which comes in effect with less than 10 players at a table) and the zone you're in.

The criteria to calculate your M is as follows:

$$\left(\frac{\text{Stack}}{\text{BB} + \text{SB} + (\text{Ante} * \text{Players})} \right)$$

Comparable playing concepts exists, but professional poker players tend to lean towards the M-Concept more than the others.
