The truth is that there is no trick to slot machines. They provide random results based on set mechanics and it all comes down to luck. With that being said, not all games are the same, so picking the right options is key, and you can still change the size of the bet throughout the session for better results.

Blackjack

Double-Down or Draw!

Blackjack is an incredibly popular, exciting and easy card game to play. The object is to have a hand with a total value higher than the dealer's without going over 21. Kings, Queens, Jacks and Tens are worth a value of 10. An Ace has the value of 1 or 11. The remaining cards are counted at face value.

How To

Play

Place a bet in the betting areas marked on the table. You and fellow players are dealt two cards each whilst the dealer is dealt one face up. If your first 2 cards add up to 21 (an Ace and a card valued 10), that's Blackjack! If they have any other total, decide whether you wish to 'draw' or 'stay'. You can continue to draw cards until you are happy with your hand.

You may "Double" your original stake on any two-card combination, however, you will only receive one more card. You can also "Split" any

pair (including any two cards with a value of 10) by placing an additional bet equal to your original. You will then be dealt an additional card to each of your split cards to create two new hands. If Aces are split, you only receive 1 additional card for each Ace. If you split Aces and a 10/picture card is drawn, the total is 21, not Blackjack. If the Dealer has an Ace as their first card, you may stake up to half of your original bet as "Insurance". This covers your bet if the dealer gets blackjack. If the dealer does get blackjack (drawing 10 as their 2nd card), Insurance wins and will be paid out 2:1.

Once all players have taken their turn the dealer draws another card for their hand. They must draw until they reach 17 or more.

Rules

Once all cards are drawn, whoever has a total closer to 21 than the dealer wins. If player's hand and dealer's hand have an equal value, it's a tie.

All winning bets are paid 1/1 but when you get

Blackjack you get paid 3/2.

Blackjack Side Bets

Perfect Pairs

Put a stake on the

Perfect Pairs box. If your first two cards are a pair, you win. Pairs will either be a Mixed Pair (5/1, 1 red and 1 black), a Coloured Pair (10/1, both red or black but different suits), a Perfect Pair (30/1, both of the same suit).

TriLux

Put a stake on

the TriLux box and if your first two cards and the Dealer's first card make the following hands, you win:

Hand Pays Mini Royal (A,K,Q, Suited) 100 to 1 Straight Flush

35 to 1 Three of a Kind 33 to 1 Straight 10 to 1 Flush 5 to 1

TriLux Super3

When

playing TriLux, you may also put a wager on the TriLux Super3 box. If your first 2 cards and the Dealer's first card make 3 of a Kind (all cards are the same rank) this bet will pay 90/1. If these cards make a Straight Flush (3 cards in sequence and of the same suit) you win 180/1 and if they make 3 of a Kind and all are the same suit you will win 270/1!
