No mundo dos jogos de azar, o Royal Flush é uma combinação muito rara e tem uma chance muito pequena de acontecer. Com odds de cerca de 650.000:1, é considerada a combinação mais forte no poker e é imbatível.

Ace, King, Queen, Jack e 10 - todos os mesmos naipes (paus, ouros, espadas ou copas

(

Nenhuma outra combinação pode derrotá-lo

GGPokers promotions such as Daily Cash races will now be paid in cash game dollars (C\$). They work similarly to the tournament dollars and can be used to pay buy-ins in cash games. The main difference for grinders is that they cannot be instantly turned into real money: they must be used to play games first.

This is your worst game. You're making mistakes, bad calls, dumb bluffs and losing money hand-over-fist. Nothing is working out, you feel horrible and just can't get anything started.

I think I slowly finishing my health deterioration due to covid/flu. Have for over 1 week very mildish symptoms. Every other day I feel pretty good, next one is bad and I can't focus. Previous weekend I had a short episode with GG. I have there like R\$10 so i decided to 6 table 50bb deep NL2 reg tables. Fun games on gg but in general I prefer playing stars. However several of my poker friends, keep telling me that I should move to GG. There is less and less traffic on stars, bad rb and so on. Well, I have a feeling they might be right. To be honest I dont know what to do about it. Always heard that GG is big rake + some scammy moves happened. That is always a big turnoff

for me. But maybe now, when I want to play semi-pro, and there is lot more games.... also in case I get to higher stakes, stars are now really dry. To sum this short two days on GG - I don't like all those emotes, reactions, gaming stuff on GG. It is not that I really suffer because of it. But I like as simple and focused themes and poker table as possible. Good thing is that I finished grinding two days with +\$10. Don't know how to take it out of gg and pokercraft graph is wrong. After that I played this week few hands on stars too. There was a moment I was winning almost every pot. Then gave away in few big setups. I managed to stop the session as I was slightly unhappy to lose 5Bl in such a quick manner. Of course I should grind waaaaay more volume. 2k hands is below my daily average. So I see my main difficulty now is to increase volume. I already noted down few things that make it hard for me right now. First of all, I have 2 days during week, when I have to wake up really early to my office job. I used to play short sessions the evenings before those days. But very often I struggled to finish session early, and it was tilting and then I had short and poor quality of sleep. Now I am thinking about not playing at all during these two days (only study) or playing lower than usual stakes. Right now it is obviously NL2 so not a big deal with implementation. Also on other days, I noticed that when I had a break from poker, I started to put as many things on my daily schedule as I can. Then in the evening I feel pretty tired and already overwhelmed with everything. Here, I need to improve the quality of my grinding time, so I need to put less tasks on myself during a day, add some naps, relaxation etc. Let's see how it works out for me this weekend. Overall there is some BR progress anyway. I now have like R\$80 with GG money. Soon I might try again NL5. Good Luck
