### Lava Lava: Slot Overview

Lava Lava is a celebration of the hot magma-ry stuff flung from volcanoes in displays which are impressive to look at – from a safe distance. Players are provided with one, of sorts, in Lava Lava, an online slot from Thunderkick that looks like it was made by the same team that made Pyramyth - both slots sharing a similar feel as well as some features. Specifically, the wild multiplier element, which is available in all phases of the game, and is joined by free spins with semi-sticky wilds, avalanches, plus scatter explosions. Be sure to prepare for some pyrotechnics.

Lava Lava also has a lot in common with Thunderkick's Beat the Beast range. It has that same solid, chunky look and feel about it, as well as uncomplicated gameplay, which roars and thunders as it goes about its business. Muscular looks greet players when the game loads, where an imposing game grid has been plonked in the middle of the screen, surrounded by smoking volcanoes and an unusual bunch of spectators who stare up at the reels from the bottom of the screen. This reverence is accentuated by the way the reels sit on a lean, as if even the player is down low looking up at them. Thunderkick's graphic team can sure draw a nice illustration, and Lava Lava's smouldering hot world makes a positive first impression.

Played on a 5-reel, 3-row game

panel, players are supplied with 15 fixed paylines to score wins on. This is a highly volatile game, apt given the presentation of its subject matter, while RTP comes in four forms. The one to look out for is the 96.14% version, possibly dropping away to 94%, 92%, or 90% on the less generous side depending on where you play.

Playable from

10 c/p to €/\$100 per spin, landing three to five matching symbols across the grid from the leftmost reel constitutes a winning combination which may or may not trigger a cascade depending on whether you're in the base or bonus game. Starting things off are five 9-A card royals as the low pays, worth 3-5x the bet for a five of a kind win. Next are three tiki masks and a golden flower as the four premium symbols. Landing five of these fires off a win worth 10 to 30 times your stake. Also, wilds appear on any reel to replace regular pay symbols to complete winning lines. They're also worth 30x the bet for a line of five and get a sticky quality once free spins are triggered.

Lava

Lava: Slot Features

Explosive is one way of describing Lava Lava's features, in terms of function as much as form. Free spins are where wild multipliers, sticky wilds, and

avalanches climax are mixed in, but some of these are available in the base game, too, let's unpick them.

#### Wild Multiplier

As well as replacing pay symbols, wild symbols also apply multipliers to wins they are part of. The more, the better, as 1, 2, 3, 4 or 5 wilds on a payline apply a multiplier of x2, x4, x8, x16, or x32 to it.

#### Scatter

##### Symbols

Scatter symbols in view explode and remove all symbols from their respective reel and row, except for wilds or other scatter symbols. Scatters are then collected by the bonus meter - 3 collected scatter symbols trigger 10 free spins from the base game or retrigger 5 free spins when the bonus game is already active.

#### Avalanches

##### In the base

game, scatter symbol explosions allow existing symbols to drop down and fill in the blanks, potentially leading to new wins. In the bonus game, each winning line explodes dramatically from the reels and is replaced by new or existing symbols from above.

Avalanches continue like this as long as there is a new winning combination or a scatter explosion.

#### Bonus Game

At the beginning of each free spin, 1 to 3 wild symbols are placed in random positions on the reels. Each wild symbol carries 3 lives, which prevent it from exploding by the avalanche feature. Whenever a wild is used in a payline win, one of its lives is used.

#### Lava Lava: Slot Verdict

##### Lava Lava is a real

Thunderkick special, sure to excite players who like the straightforward, highly effective games the studio is adept at turning out. We mentioned echoes of Beat the Beast as well as Pyramyth, but Quickspin's hit release Hammer of Vulcan also comes to mind and may have had a strong influence on Lava Lava. Not in a bad way either. On the contrary, it was strangely comforting to review a game that had such a strong sense of its maker's personality. The game's visual presentation demands attention and is a good representative of what's to come, namely hearty gaming for players who like it dormant one moment, erupting the next.

##### Erupting is one way of describing the way symbols

cascade, glow, line up, and explode. Thunderkick has a real knack for the sort of theatrics on display in Lava Lava, which makes everything else it does that much more satisfying. Fortunately, the features in Lava Lava are as equally good as the graphics.

Perhaps not so much in the base game, but the sticky quality of wilds in free spins, along with their multiplying ability, is a great combination and the cause of many of Lava Lava's best moments. The final icing on top is potential, and Lava Lava steps up there too, with a claimed max win figure of 10,000x the stake.

##### When the volcanoes had

stopped erupting, and the dust had settled, Lava Lava had made a highly positive impression. As Thunderkick slots tend to be, Lava Lava is a well-oiled beast of a game that looks as chunkily, reliably good to play as it is presented.

## Cientistas chineses obtêm dados de observação contínua da atmosfera do Planalto Qinghai-Xizang

Beijing, 11 jun (Xinhua) -- Cientistas chineses obtiveram recentemente, pela primeira vez, dados de observação contínua da atmosfera troposférica sobre o Planalto Qinghai-Xizang.

Uma equipe de pesquisa do Instituto de Pesquisa do Planalto Tibetano (ITP) da Academia Chinesa de Ciências obteve dados de observação por três anos consecutivos sobre o planalto, de acordo com o ITP.

### Nova rede de radiômetros de micro-ondas

Em 2024, a China estabeleceu uma rede de radiômetros de micro-ondas (MWRs) baseados no solo para a atmosfera troposférica sobre o Planalto Qinghai-Xizang para realizar observações autônomas em tempo real e contínuas sob quase todas as condições climáticas. Seus dados de observação foram abertos ao público.

A rede MWRs pode medir com precisão a temperatura e a umidade da atmosfera troposférica do planalto e monitorar as mudanças da estrutura hidrotérmica da atmosfera troposférica do planalto, de acordo com o pesquisador do ITP, Ma Yaoming.

## **Impacto na pesquisa climática**

Além de apoiar o estudo dos processos climáticos no planalto, os dados de observação também darão suporte ao estudo da mudança climática global, acrescentou Ma.

Os perfis contínuos de temperatura e umidade derivados dos dados MWR fornecem uma perspectiva única sobre a evolução da estrutura termodinâmica associada ao aquecimento do Planalto Qinghai-Xizang.

Os resultados do estudo foram publicados na revista *Advances in Atmospheric Sciences*.
