One thing that we rarely see in video slots is the theme of real-life criminals, specifically Pablo Escobar. He was the wealthiest criminal in history, amassing over 25 billion dollars in total. Although the developers at Stakelogic are not associated with any of that, they did find inspiration for a brand new game called El Patron slot. The maximum prize you can achieve in this game is capped at £25,000, so let's see how you can achieve that.

El Patron Slot Review

Table of Contents

Being such a powerful drug

lord means that you are constantly surrounded by money, guns, and of course drugs, El Parton slot lets you experience a small glimpse of this lifestyle from a safe distance.

There, you can trigger some exciting bonus features to help you achieve the bigger wins, such as the action feature, free spins, and a gamble feature.

The El Patron slot

comes from the brilliant minds of Stakelogic, a company that hasn't been in the industry for a very long time, but is almost as accomplished as some of the biggest software developers. The games it has created so far are in demand all over the world, so let's see what this latest release has to offer.

The playing area in the El Patron

slot is made up of 5 rows and 5 reels, plus there are two more special horizontal reels that are related to the bonus features. One is above, while the other one is below the regular reels. In order to achieve a win, you will need to land 3, 4, or 5 matching symbols along the 25 available paylines, which all start from the first reel on the left.

As far as the betting situation goes, the regular options are between £0.25 and £125 per spin, which is already a great range, but El Patron slot also comes with the Super Stake feature that can increase your chances to trigger the bonus features by doubling your selected bet. This means that the maximum stake can be as high as £250 per spin.

Exceptional graphics that offer smooth and immersive gameplay are most often a part of the StakeLogic experience. The developers certainly know how to create an incredible atmosphere and they have certainly outdone themselves with a thrilling theme such as this one.

The game is set in the famous cartel, which was located in Colombia, which can be seen by the backdrop of the El Patron slot. On the left side of the reels, you have a big poster of El Patron, as well as several wooden crates. On the right side, there is a jeep, an old house, and a couple of parrots.

The reels on the other hand, which are in the middle of the screen, are the ones that have the most elements. They are covered in vines and barbed wire on top, while on the bottom they have piles of cash, bullets, and machine guns.

The symbols that will land on the reels are also appropriate to the theme, and the list starts with a cigar cutter, a cigar, brass knuckles, a pistol, and whiskey. The other half of the list is made up of 3 characters that are behind bars, of which the most valuable one is worth 80x the stake for a fully covered payline.

You will also come across wild symbols, which land on the bottom horizontal reel and can primarily substitute the regular pay symbols. They can also act in combination with the action symbols that land on the top horizontal reel, but more about that later. Finally, we have the scatter symbols that can trigger the free spins.

As we already mentioned above, the maximum amount that you can at a time is capped at £25,000. This is combined with a medium-high volatility model, which means that rewards will land somewhat less frequently, but they will be proportionally bigger in value.

The theoretical El Patron RTP is capped just slightly below the industry average, at 95.86%, which is still a pretty satisfactory value.

If you want to learn more about the RTP and the different volatility models of these games, you should take a look at our detailed guide on the topic.

El Patron slot comes equipped with several exciting bonus features that offer multiple possibilities, so let's explain them in more detail.

Action Feature

We already explained that the top horizontal reel has action symbols, while the bottom one has wild symbols, but if you manage to align both of these symbols at the same time, one of the following actions will be activated:

Expanding Wilds - a wild symbol will appear on the specific reel and it will expand to cover it completely;

- a wild symbol will appear on the specific reel and it will expand to cover it completely; Dropping Wilds - up to 5 wild symbols will appear on the reels and drop down with each respin until they disappear from the grid;

- up to

5 wild symbols will appear on the reels and drop down with each respin until they disappear from the grid; Multiplier Wilds - up to 5 wild symbols will appear on the reels and each one of them will have a multiplier of x2, x3, x4, or x5. If they are used to create a winning combination, the multipliers will be combined.

Free Spins

Feature

Landing 3 scatters at the same time will trigger this feature and earn you 12 free spins. Special machine gun symbols will appear on the top horizontal reel. If you

manage to align one of them with a wild symbol on the bottom reel, one of the following modifiers will be triggered:

Wild Symbols - up to 5 wild symbols will be added to the reels;

- up to 5 wild symbols will be added to the reels; Multiplier Wild Symbols - up to 5 wild symbols will be added on the reels and each of them will have a multiplier of x2, x3, x4, or x5;

- up to 5 wild symbols will be added on the reels and each of them will have a multiplier of x2, x3, x4, or x5; Sticky Wild Symbols - up to 5 wild symbols will be added to the reels and they will remain until the end of the free spins.

Gamble

Feature

After each win, you can choose to gamble with the prize. The gamble feature consists of a face-down card and if you guess the colour, the prize will be doubled, but guessing the suit will quadruple it. Guessing incorrectly, however, will result in losing the entire reward.

Buy Bonus Feature

Players in certain jurisdictions can directly enter the free spins by paying 160x the stake, instead of waiting for 3 scatter symbols to land on the reels.

El Patron slot is made with the state of the art

HTML5 technology, which means that you can enjoy it on mobiles and tablets as well.

There are no downloads necessary and all you have to do is open the game directly in the browser of your device and start spinning.

Other Stakelogic Slots

If you enjoy the

El Patron slot, then you should definitely check out more of what Stakelogic has to offer. Here are some interesting examples.

Lost Riches of El Dorado - the lost city of

El Dorado has been found and now you have the chance to visit it. The 5x3 layout is combined with 10 active paylines. This is a highly volatile game, with a maximum prize of 10,000x the stake, great bonus features, and an RTP of 96.01%.

Old Fellow - this is

an exciting mining-themed video slot that will put you in the company of interesting characters as you spin the 5x4 grid and land wins along with the 20 available paylines. In this highly volatile game, you can win up to 50,000x the stake, while the RTP is capped at 95.60%.

Jade of the Jungle - with this game, you will be taken to a deep part

of the jungle near an old Aztec pyramid. Each layout is 3x3 in size and comes with 7 fixed paylines, which means there are 14 paylines in total. You can win as much as 2,976x the stake. The volatility of the game is medium-high, while the RTP is capped at 95.30%.

The developers at Stakelogic have done a great job at choosing the theme of the El Patron slot, as well as creating the whole concept. The theme is certainly very original and creative, so it is not something you come across very often. On top of that, the visuals are perfectly designed to capture and present it, so you are in for a truly great experience.

As far as the gameplay is concerned, it is generally quite straightforward, except for the two bonus reels on top and bottom.

Not only they will

make the game more exciting, but they are also essential in triggering some of the bonus features and earning the big wins. Plus, the free spins can be of big help as well. The only downside can be the maximum win potential, which might be a bit

disappointing if you prefer playing with higher stakes.

While some people consider it a relaxing and leisurely activity, others argue that hiking is a sport that requires physical fitness, endurance, and skills.

This has led to an ongoing debate on whether hiking should be classified as a sport or simply a recreational activity.

Those who support the idea that hiking is a sport argue that it involves physical exertion and requires a certain level of fitness and training.

Hikers must carry backpacks, navigate through uneven terrain, and endure long hours of walking, which can be physically challenging.

In addition, hiking can also involve other activities such as rock climbing, bouldering, and scrambling, which require specialized skills and techniques.
