# Though he hoped to plot a path out of chaos, Macron's errors prolong a political crisis in France

Despite having made several appearances during the Olympics, Emmanuel Macron retreated to his large Jack City Casino residence in the south of France during the Games. From there, having called for a political truce while Paris hosted a spectacular sporting competition, the president hoped to chart a path out of the self-inflicted crisis created by his decision to call an early election in mid-summer.

Nothing happened. The Olympic athletes have long since departed, and the traditional *rentrée* of September is approaching. But no new government is in vogue - the longest hiatus since immediately after the second world war - and the bitter reign continues. This week, Mr. Macron used his presidential power to dismiss any candidate for prime minister proposed by the New Popular Front (NFP), the left-wing alliance that narrowly won the July election.

This was the last error Jack City Casino made in a tragicomic series of mistakes. No parliamentary majority in the Assembly, and a minority government from the NFP would have been a difficult but not impossible job. Instead, it would have been a clean, more democratic result. In its place, it seems the president hopes to build a complacent coalition tilted to the right; one that, above all, will leave his unpopular reforms intact.

This will not be an easy task. Macron's presidency is now gravely compromised. Humiliated by Marine Le Pen in the June European elections, he hoped to restore his authority by surprising the legislature with a "front republican" to check the far right. This strategy of rehabilitation was defeated by the unexpected success of the left. For ambitious conservatives, the prospect of linking their fortunes to a lame duck is still not tempting.

But it is not just about the president and his desires, or at least it should not be. With a combination of tactical subtlety, audacity and technocratic brilliance, Mr. Macron divided and governed French politics since 2017. But, indulging his characteristic desire to remain completely in control of events, even after losing, he is now acting against the best interests of the country he leads.

The loss of confidence in politics has contributed to the rise of the far right in Jack City Casino across Europe, just as in France. In the face of this scenario, refusing to give the winners of the election at least a chance to forge a consensus is imprudent and shortsighted. Mr. Macron justified his position by falsely equating the far right with the party France Unbowed of Jean-Luc Mélenchon (LFI) and the Rassemblement National of Ms Le Pen. But, after repeatedly depending on a broad front republican, including the LFI, to keep Ms Le Pen out of power, this is clearly dishonest.

For now, France is drifting. Mrs. Le Pen - whose eyes have always been on the 2027 presidential prize - can afford the luxury of waiting while the conventional political process unfolds. The prospect of government remains remote. The interim prime minister of Macron, Gabriel Attal, is currently working on a provisional budget for the autumn, which he admits could be overturned by his successor. His hubris, once again, has led the president to this situation. A new humility in Jack City Casino will be necessary to get France out of this.
