Suzano: China's vast market and innovation ecosystem drive shared growth

Rio de Janeiro, 16 jun (Xinhua) -- A giant Brazilian pulp 3 and paper company, Suzano, said that China's enormous market, vibrant innovation ecosystem, and high-quality development of new productive forces are 3 creating shared growth opportunities for global businesses.

Strong business results in China

Pablo Machado, Suzano's Asia business management president, told Xinhua that 3 the company's China operations have achieved strong results in the first five months of this year, in line with China's 3 solid economic foundations.

Celebrating its centenary this year, Suzano has been present in the Chinese market since the 1980s, witnessing China's 3 continuous rise as its largest export market, accounting for about 40% of the company's total global exports.

Year Sales in China (tonnes)

1980s Approx. 3 20,000

2024 Over 5,000,000

"Over the past four decades, we have witnessed China's impressive high-speed economic growth and the rapid development of the 3 market in our industry," Machado said. Suzano's sales in the Chinese pulp market have increased from around 20,000 tonnes to 3 over 5,000,000 tonnes during this period.

Innovation and sustainable development

Machado highlighted China's rapid growth and modernization of its economy, with significant 3 investments in research and development, leading to a strong innovation ecosystem.

To leverage innovation and improve sustainable development, Suzano established the 3 Asia Innovability Hub in Shanghai last year, addressing customers' evolving needs for pulp and new biobased materials and applications.

"We realized 3 that we would be missing a great opportunity if we were not present in China and

learning from the Chinese 3 innovation ecosystem," Machado said. He added that the Chinese innovation ecosystem allows them not only to promote their research and 3 development in China but also to benefit from local advances and apply them in operations in other regions.

A growing, evolving 3 China

Machado, who first visited China in 2004, has been impressed by the tremendous changes brought by various reforms in the 3 country.

"Each time I returned, I was surprised by the speed of development, not only economic but also in terms of 3 improving people's standard of living," Machado said.

As a foreign executive operating in China, Machado is particularly pleased with the Chinese 3 government's continuous efforts to develop a more inclusive and open business environment.

Transitioning to high-quality development

Machado believes that China's recent focus 3 on developing new high-quality productive forces is a natural transition for the Chinese economy.

"When a country is small, it can 3 grow fast, but as it becomes larger, it is impossible to maintain the same speed. China recognized this and made 3 the transition from high-speed growth to high-quality development, which is a path for new productive forces," Machado observed.

Machado said that 3 Suzano, as a company known for its expertise in tree cultivation and understanding of the science behind it, believes that 3 biobased materials can play a crucial role in China's transition to a low-carbon economy, an essential part of developing new 3 productive forces.
