The greatest football players and coaches in the world currently have two opportunities each year to scoop up coveted individual 4 honours with both the Ballon d'Or and FIFA The Best awards on the calendar.

Each ceremony recognises individuals who have made 4 their mark on the game and they have proven to be a good way to measure who has shone brightest 4 during specific eras.

While these are accolades any player would hope to win, there are a few key differences between the 4 Ballon d'Or and FIFA's The Best.

The

Sporting News looks at what sets each award apart and which one is arguably 4 the bigger deal.

What's the

difference between Ballon d'Or and FIFA The Best?

More 4 than just a name differentiates

these two awards. We break down some of the key points of difference below.

History

If

the 4 Ballon d'Or sounds more familiar that's because it has been around a lot longer than the FIFA The Best awards.

The 4 first Ballon d'Or was handed out in 1956, while

FIFA's awards in their current form were only rolled out recently 4 in 2024.

Voting

Both

awards are decided by a very different set of voters.

Journalists from around the world

have exclusively decided the 4 winner of the Ballon d'Or awards, with the exception of the 2010-2024 period, which saw a collaboration alongside FIFA (see 4 below).

FIFA's The

Best arguably uses a more democratic system that takes into account votes from national team coaches, national team 4 captains, journalists and fans.

Schedule

Another key

difference between both awards is when the voting is held and the winners are named.

The 4 Ballon d'Or is generally handed out in October and now bases its winners on their performances across a single season.

FIFA, 4 however, hold their award ceremony

either at the beginning or end of a calendar year with winners judged on their

4 performances across that time frame. The latest Best award ceremony takes place in January, 2024.

Trophy

Last but not least, the silverware 4 players take home for each award is inevitably quite different.

The Ballon d'Or takes the form of a golden ball,

while 4 FIFA's The Best is a platinum trophy that resembles a smaller version of the World Cup.

Did FIFA ever give out 4 the Ballon d'Or?

While FIFA now has its own,

distinctly different awards, they did once team up with French publication France 4 Football to hand out the Ballon d'Or.

That relationship began in 2010 and saw FIFA

shelve their World Player of the 4 Year award as a result. The player and coach votes,

which decided that award and now feed into The Best, 4 were combined with the Ballon d'Or's ballot.

The collaboration saw the accolade renamed the 'FIFA Ballon d'Or' before

both parties went 4 their separate ways in 2024 and FIFA launched their own awards promptly afterwards.

Which players have 4 won both

Ballon d'Or and FIFA The Best?

Despite their many differences, both awards have often been won by the same 4 players in the same years.

The only variation to date in the men's

game came in 2024 when Lionel Messi controversially 4 won the Ballon d'Or and Robert Lewandowski was awarded FIFA's The Best.

Only a few votes separated the players across

both 4 awards with many fans and players critical of Lewandowski not taking the Ballon d'Or.

Why Ballon d'Or is a bigger deal 4 than FIFA The Best

With more than 50 years of

extra history, the Ballon d'Or holds a special place in the 4 heart of the footballing world as an annual tradition.

The current generation of players saw their idols lift

the golden ball 4 trophy, and it continues to have a real aura around it.

While FIFA has

a greater profile around the world when 4 compared to Ballon d'Or organisers France

Football, its The Best awards still need time to become more established as the 4 honour that all players dream of from the day they lace up their boots.

"All the work I did, I

never 4 gave up. It was a childhood dream," Benzema said about winning the 2024 Ballon d'Or. Another decade likely needs to 4 elapse before players grow up saying the same thing about FIFA's The Best trophy.

### Mudanças Climáticas Provocam Mortandades Em Massa Entre os Animais Marinhos

Não é apenas o calor dos oceanos que está afetando a vida marinha - nova pesquisa mostra que eventos extremamente frios estão acontecendo e causando mortandades lucksports massa. E a mesma poluição que causa o problema climático é provavelmente responsável por esses eventos "letais" lucksports outro extremo do espectro térmico.

Os oceanos do mundo tem sido afligidos por unprecedentes aquecimento nos últimos anos, causando preocupações com a vida marinha. Bilhões de caranguejos desapareceram no Pacífico Norte; leões marinhos e golfinhos estão sendo varridos doentes; récifs de coral icônicos estão sofrendo massa branqueamento.

Mas enquanto as temperaturas dos oceanos subem, eventos de ressurgência fria extremamente intensos - quando fortes ventos e correntes oceânicas trazem bolsas de água fria para a superfície, substituindo a água quente que estava lá - também estão se tornando mais frequentes e intensos, ameaçando a vida marinha, de acordo com o estudo publicado segunda-feira na revista Nature Climate Change.

## Alterações Complexas

"As mudanças climáticas são realmente complexas", disse Nicolas Lubitz, autor principal do estudo e pesquisador da Universidade James Cook lucksports Queensland, Austrália. "Não é apenas aquecimento do planeta, mas está realmente alterando a maneira como nossos oceanos funcionam."

## Eventos Letais

Quando Lubitz ouviu relatos de animais marinhos como tubarões, raias e lulas lavando à praia mortos na costa sudeste da África do Sul lucksports março de 2024, ele começou a investigar. Mais de 260 animais marinhos de 81 espécies diferentes morreram nesse único evento extremo.

## Resfriamento Rapido

"A letalidade de um evento frio está provavelmente ligada à velocidade lucksports que a temperatura desce", disse Lubitz. "Se o evento frio durar por vários dias, o que está acontecendo com maior frequência, as pesquisas mostram que os animais marinhos, incluindo tartarugas e muitas espécies de peixes, podem sofrer de hipotermia e falha fisiológica ou morrer."

## Descobertas Surpreendentes

As descobertas fornecem uma "explicação bastante razoável" para os muitos acontecimentos inesperados de mortalidade marinha que as pessoas têm visto pelo mundo, disse Ajit Subramaniam, pesquisador da Climate School's Lamont-Doherty Earth Observatory da Universidade de Columbia.
