First things first. There are no completion metrics related to Slots. Furthermore, anything you can get in the Item Exchange can be found elsewhere. So, in essence, there's absolutely zero reason to play Slots in this game unless you want the experience of playing these games without travelling to Japan.

Minigame

First, let's get out the way that you're playing "pachislot" machines in this minigame. You're not playing pachinko; that involves tiny metal balls and there's a pinball aspect to it. Pachislot is just slot reels with some degree of control.

Unlike Western slot machines where all you have to do is pull the arm and pray the tumblers line up, pachislot differs in a few ways. For one, you manually stop the tumblers using button presses. That said, it doesn't give you as fine control as you think (there's an allowance for the tumblers to slip past the ones you need). The second difference is that you don't get big payouts on one spin. What you are looking forward to instead is to set the machine up for jackpot mode. You'll only ever get a maximum of 15 tokens on any one spin, but getting jackpot mode going means that just about every spin you make for a set amount of spins will give you the winning 15 tokens.

Once you enter the parlor, you'll get a "birds eye view" where you can select which machine you want to play. There are four different machines, and you'll note that you can select different ones that might be hotter or colder depending on when their last jackpot was.

There are multiple cheat items you can use for these games, too. The most common one you'll come across will probably be the "High Payout Token", which is supposed to make jackpots come more easily. You can also go to Fumie or either Ebisu Pawn to find tokens for cheating in specific games, giving you various types of automatic jackpots.
