BETEAST, or BENC, is a popular online betting platform that offers various gambling options, including poker. However, due to Brazil's strict gambling laws, the website has been deemed illegal, and BNC has been actively blocking access to it.

According to BNC, BETEAST has been operating without a valid license, and the company's activities are considered a threat to the country's financial system and social order. As a result, BNC has been collaborating with internet service providers (ISPs) to block access to the website, and anyone attempting to access it will be redirected to a page displaying a message from BNC. BNC's actions have been met with mixed reactions. While some argue that BNC is protecting consumers and preventing illegal activities, others believe that the agency is overstepping its boundaries and violating internet freedom. Regardless, BNC's message is clear: online gambling, including poker, is illegal in Brazil, and those who engage in such activities will be punished. In summary, BNC is the agency responsible for regulating and combating illegal gambling activities in Brazil, and BETEAST, or BENC, is one of the websites that have been targeted due to its illegal operations. BNC's actions to block access to the website have been met with mixed

reactions, but the message is clear: online gambling is illegal in Brazil, and those who engage in it will face consequences.
