E-mail:\*

part where the mother and the child are separated slot pinguim a red mountain, at a level quite early in the game that you have to return to her... I was completing a project with music for this inside the hospital next to my mother when I was recovering from open cardiac surgeries."

Todd Baker takes a pause for a second. He is remembering the process of development of Monument Valley 2 slot pinguim 2024, which is indie puzzler, a long-awaited continuation of the history of mobile games with major success in geometry mobile and more experimental; with much less experience in design: while the first titles are optical illusions or impossible objects (the sequence goes for the towers inspired by M.C. Escher) besides his terrifyingly inspiring inspirations "spires" [oucism].

In his heart is a mother and daughter, without words inside or outside the paths of the other desperately trying to stay together while the world rises and falls inevitably doing everything to divide them. It's about legacy femininity with relationships; For Todd there was a parallel between fiction (and reality) "The fact of this game being just a parent/mother [that] is that in the end of that year I was creating this game..."

"I wanted the music to speak and tell a story"... Monument Valley 2.

{img}: ustwo

The sound of Monument Valley 2 is the type of music that you want to hear when you're not playing; even divorced from the slot pinguim mother, still so bathed and textured. So rich or textural it provides a comforting scenario for everything you do: its warm organic tones with soft tones over it like a wave are always pleasant to the ears of the Bakers! Even before this it was possible to reach the end of the Monument...

"Basically, what I was trying to do was create a warm embrace sound", says Baker while explaining the first moments of the game - where the child comes for the first time to the mother and she puts slot pinguim her arms around her. "In that moment the girl enters the place where she is hugged with all these low notes there... it's super warm... I needed to feel confused like: 'It's exactly here now'".

This moment in the game is crucial: it's about configuring what this slot pinguim risk. Yes, this story has a minimum of abstraction and minimalism but there is that power in this Baker - placing three staves of the improvised acoustic guitar melody to play with an EBow giving that slightly supernatural sound; putting all this in the low notes - it's as important as the visuals presented in the Apple/iOS's".

That's how it went with the public, Baker says. "What impresses me is that now I receive messages from people saying 'this was the sound of my childhood'", he laughs. "Talking to me like adults today slot pinguim day and having played this game when they were 11 or 12 years old... saying to me: this is not for nostalgics! It's a safe space for them".

Todd Baker plays music from Monument Valley 2 in V&A, slot pinguim London.

{img}: ustwo

Baker was not only responsible for the music in Monument Valley 2, but also for the design of the sound - like certain interactive elements play and sing when you slide or tap, how small musical notes are played when investigating the curious geometric slot pinguim world that is being suggested. It was a chance for him to imitate the approach adopted by Martin Stig Andersen with Limbo and Inside - both games strongly inspired by the audio of Monument Valley 2.

"From the beginning, I had confidence to say that I could do this; I could do the whole project in a holistic way. It was about slot pinguim licensing music in the trailer or using other

artistas mas... Eu tinha mesmo essa coisa por mim mesma e queria deixar as músicas falarem sobre ela com toda slot pinguim história."

Como diz Baker isso, ele mima um abraço trazendo-o slot pinguim torno de si mesmo recriando o beijo que tentou chamar na mente e ouvidos dos jogadores naquele momento inicial do jogo. Dez anos desde a liberação original da partida; A Apple ainda promove tanto Monument Valley quanto as sequências no App Store (Loja), sendo este último instalado nos dispositivos pelo menos 30m sem dúvida milhões já ouviram esse carinho com os fones para brincarem ao som das cabeças dele... Se for mãe dela!
