Player Interview

During the EPT Main Event in Monte Carlo, Magnus spoke to PokerStarsBlog. The outstanding chess player talked about his ambitions in poker, how much this hobby has in common with chess, and which of the strongest chess players could succeed in gambling.

Magnus Carlsen cashed for the first time in such a prestigious tournament at EPT Monte Carlo.

– "Have you ever cashed in the EPT before?"

The neighbors at the bubble TV table asked Magnus.

"That would be problematic, given

that I've never played them before," Carlsen replied.

He played in the tournament for

three days and was eliminated in 63rd place, for which he received €15,000. By poker standards, the prize is quite modest, but Magnus managed to play at the TV table and noticeably increased interest in the tournament.

Magnus told PokerStars journalists

that he had already attended this tournament, however, only as a spectator.

"I was in

this hall in 2007," Magnus recalls. – I was 18 years old, and I came to Monte Carlo for a chess tournament. I knew that there was a major poker series nearby and that

Alexander Grischuk, who was in the top ten at the time and is now one of the best chess players in the world, was participating in the EPT Main Event. I went to go see.

This

was Magnus' first exposure to poker. A couple of years later, in an interview, he admitted that he sometimes plays online.

After that, there was no news about his poker

achievements for several years, but in recent years Magnus' love for the game has clearly received a second wind. In 2024, he signed a contract with Unibet, he regularly plays in the Norwegian Poker Championship, and last year he came to Las Vegas for the WSOP Main Event. Most recently, he was featured on the most popular poker show of recent years – the Hustler casino stream.

– What VPIP will you have today? Alexandra

Botez asked him before the session.

– I don't even know, it's definitely less than

80.

– Well, at least more than 60?

– Not likely either. I really need money to pay for my expensive bad habits like alcohol. Therefore, I will play seriously.

– Then another

question – during the game will you make more or less than three shots?

– And it

already depends on how I play.

As a result, Carlsen turned out to be one of the tightest, which allowed him to play a small plus (they played R\$10/\$25 with straddle).

Despite his obvious interest in the game, Magnus admits that he does not set big poker goals for himself.

– In poker, I have no ambitions; I enjoy it, it's

interesting, but nothing more. I'm not working on the game in any way, although I should. But I like to discuss hands with familiar players.

As is often the case with

celebrities, their game is immediately critiqued by experts.

Magnus understands that

some of his actions deserve criticism and is not afraid of this.

“I don't think too

highly of my game myself. I try to learn something useful from every session. It is clear that sometimes I can do something outright stupid, this is expected. And it is quite logical that they will pay attention to this.

There are a lot of players in poker

who have played chess at a high level in the past. When asked which of the current strongest chess players could achieve good results, Magnus said the new world champion.

“I think Ding Liren could be a very strong player. I am familiar with him, he is very strong in mathematics, and incredibly and quickly calculates the moves on the chessboard. I think it would be useful for him to be in poker too.

The main difference

between chess and poker is dispersion. In poker, situations constantly arise in which the player cannot influence the outcome in any way. But Magnus is sure that poker and chess have much more in common than is commonly thought.

– Of course, chess is a game

with complete information, but still, you often have to make a decision, realizing that your calculations simply cannot be perfect. And in this, these two games are very similar.

Carlsen's ability to guess was vividly demonstrated in one of the hands he played on Hustler's stream. On the board of , he called three barrels with and turned out to be right.

Both during the game and after it, Carlsen analyzed this hand like an experienced professional, suggesting that there were not many value hands on such a dynamic board that his opponent could bet with on all three streets.

“Yes, there were not so many

obvious bluffs,” Carlsen recalls. “On the other hand, he is the kind of player who with many one-pair hands will try to get to showdown with checks. So I figured there was a decent chance he was bluffing. We weak players often play by our gut. And sometimes it

fails.

For many, Magnus is the greatest chess player in history; some might even list him as one of the best athletes of all time. Does he have any sports idols himself?

Great question. In general, I admire the actions of people, not themselves. But, if you need to name someone specifically, then I will choose Rafa Nadal. He has a unique style that fascinates me. He is incredibly stubborn, sometimes it seems that it is impossible to break him at all.

For many, online poker has become an outlet during the Covid epidemic, when people were forced to stay at home all day. It was during the lockdown that Magnus began to play a lot online. But the world champion in rapid chess will never get used to one feature of poker – the need to make decisions instantly.

"Shot

clocks and time banks cause me a lot of stress. Chess is much easier for me because I know what to do and I make many decisions on autopilot. When I play blitz or rapid chess online, I like to listen to music. It helps me relax and my instincts work better. But poker is different. Here I have much less knowledge, so I have to strain more. The extra noise will only distract me. I just sit and carefully follow what is happening so as not to miss anything important."

Dining across the divide: Richard y Thea, Londres

Richard, 37, Londres

Ocupación Contador público certificado, trabajando en bienes raíces

Historial de votación Labour, y se describe a sí mismo como de centro-izquierda

Entrada Como niño, Richard cantó en la Catedral de Southwark para Nelson Mandela, y lo conoció después

Thea, 35, Londres

Ocupación Escritor(a) de contenido freelance

Historial de votación Generalmente Labour, pero Lib Dem más recientemente. Está de acuerdo con la teoría básica del comunismo

Entrada Thea una vez fumó un porro con Clown de la banda Slipknot en un caravana en México

Para comenzar

Thea Pensé que sus pantalones de salmón apuntaban a que era un entusiasta de los yates y los capitalistas de riesgo. Pero solo es un hombre que le gustan los pantalones de salmón.

Richard Ella mencionó que solía tener una camiseta de Karl Marx, pero se la dio porque la gente lo confundía con Santa Claus. Ella usaba shorts y botas rosadas - más veraniegas que yo, porque había estado en la oficina.

Thea Soy vegetariana, pero dije que si él quería conseguir una gran pieza de bistec estaba bien. Su esposa es vegetariana, así que está acostumbrado a comer comida vegetariana, y compartimos algunas cosas.

Richard Comimos una ensalada de higo y avellana, queso feta frito, pimientos, tagliatelle con champiñones, y una ensalada de tomate y frijoles. Y una buena botella de chablis.

El gran problema

Thea En mi utopía comunista ideal, todas las viviendas serían propiedad y administradas por el estado. Así sería asequible, y el alquiler sería un tipo de impuesto que se devuelve para mantener el sistema y construir más viviendas accesibles.

Richard Ella vino desde un punto de vista más idealista. Debemos poder poseer casas. El problema con la vivienda se remonta a Margaret Thatcher vendiendo viviendas sociales y no reemplazándolas. Así que los precios de las viviendas han subido y subido y subido. Pero sería muy difícil decir que vamos a reducir a la mitad el valor de su propiedad - se quedaría en equity negativo.

Thea Me doy cuenta de que es casi inviable. No creo que la vivienda debería ser un activo de lucro. Debería haber un límite en cuanto a cuántas propiedades puedes poseer. Así que si alguien compra una unidad y se queda vacía, debería volver a la propiedad de la autoridad local. Así no como la Gestapo llegando a tu puerta y diciendo: "Sal, dame tu casa", pero controles para evitar que la gente acapare propiedades, y las propiedades de inversión vacías devolviéndose automáticamente a la propiedad del gobierno.

Richard No hay razón por la que poseer una casa no debería ser aspiracional. Toma una casa de ocho dormitorios que vale cinco millones de libras: si alguien tiene la suerte de estar en esa posición, no debes impedirlo. Lo que debes hacer es asegurarte de que las personas que pueden pagar esas casas estén pagando su parte en impuestos.

Plato compartido

Richard Estuvimos de acuerdo en que Thatcher fue una mala primera ministra - no solo por la vivienda social y la creación de división social, sino también por regalar las reservas de petróleo.

Thea Más o menos estuvimos de acuerdo en cómo nos sentíamos sobre Jeremy Corbyn. Estaba muy en línea con sus inclinaciones socialistas. Pero sentimos que no era un buen líder de partido, y era ineficaz con el antisemitismo.

Para el postre

Thea El impuesto sobre la herencia debería ser del 100%. Impóngalo todo, para financiar servicios públicos y viviendas accesibles. Porque tanto la riqueza y la propiedad se mantienen dentro de las familias, los ricos se vuelven más ricos y los pobres más pobres. Es injusto y si se bombease de vuelta en funcionamiento servicios públicos, la gente no necesitaría depender de la herencia para pagar una propiedad, porque habría financiación para construir suficientes viviendas sociales para todos los que lo necesitan.

Richard Australia tiene un sistema de herencia en el que el destinatario puede ser gravado, en lugar de la propiedad. En el Reino Unido, podrías tener una cantidad libre de impuestos sobre la herencia vitalicia - digamos £100,000 - entonces todo lo que esté por encima de eso sería gravado. Así que si recibes una casa de tu abuelo en Mónaco, anteriormente eso no habría sido gravado, pero ahora porque serías residente del Reino Unido, lo sería.

Conclusiones

Richard Thea fue fácil de charlar y realmente interesante. Hay muchas cosas aterradoras y deprimentes que suceden, pero nos concentramos en las cosas que podrían marcar la diferencia: fue una conversación esperanzadora.

Thea Incluso si tuviéramos opiniones políticas más opuestas, aún encontraríamos áreas en las que podríamos comprometernos. Las políticas de las personas no son inherentemente maliciosas, incluso si parecen feas para alguien del otro lado.
