The creatures from Greek mythology were known as savage beasts with an upper body of a human extending into a lower body of a horse. These mighty centaurs are unleashed on the reels of this slot addition to the Colossal Payouts™ series by Merkur Gaming, doubling as wild symbols and win multipliers.

Merkur Gaming is

one of the veterans in the entertainment industry, having celebrated its 60th anniversary in 2024. Throughout its history, the developer remained at the forefront of producing innovative gaming concepts – initially for brick-and-mortar casinos and in the past decade for online gaming. Merkur Gaming slots are known for their high volatility with massive win potential. Games such as Eye of Horus or 221B Baker Street have achieved legendary status among the slot-playing community.

The Beast in Numbers and Stats

Merkur is yet another provider that hides the potential of its games behind rather simplistic yet modern designs. That should not fool anyone, as the high variance of these games is not for the faint-hearted. Plus, crisp graphics and seamless animations underscore the high quality of Merkur games.

Zentaurus fits exactly into the

above category, with a Greek-themed game window and sky-high line pays for a five of a kind. Those brave enough to take the game for a spin will do so on five reels, three rows, and 20 fixed paylines. A generous RTP of 95.96% will ensure that balances do not vanish at high speed. Bet sizes starting at 0.20 credits will be welcomed by low rollers, while the maximum 40 credits keep the risk in check.

All low-value pay symbols

from 9 through to A can appear semi-stacked on any spin. Medium-paying symbols do not

appear stacked and comprise a Greek fruit basket, an ancient amphora, a harp, and a tile with a mountain scene. The top and wild symbol is Zentaurus himself, appearing in different sizes covering one- to three-reel positions. Pays for a single five of a kind start at 4x the bet and peak at a staggering 5,000x your stake. Scatters are an ancient gold coin, with a minimum of three required to trigger the free spins. Merkur has limited the maximum win from one spin or bonus round to 250,000 coins or 10,000x your stake, whichever value is reached first.

#### Wild Win Multipliers and Colossal

#### Payouts™

Watch in awe as a seemingly smallish win transforms into a big or even mega win when combined with wild symbols. Any winning combination with a minimum of one wild symbol will be sweetened with an increasing multiplier. One wild symbol applies a x2 multiplier, two wilds will see that growing to x4, while three increase the number to x8. The top multiplier is x16 and this is achieved when four wild symbols complete a winning combo.

Taking the highest character symbol, which normally pays 200x your stake for five of a kind, will see the win go up to 400x the stake, all the way to a massive 3,200x the stake. Even the lowest-paying symbol will deliver big wins from 8x to 64x your bet.

#### Free Spins With a Streak

Experience a bonus round with a twist on Zentaurus

when at least three scatters land anywhere on the reels in one spin. 10 free spins are awarded, which can be indefinitely retriggered. While there are no extra multipliers awarded during the feature, there's a surprising feature which could make a big difference to the result of the bonus round.

This is the Streak feature, which is

triggered on every free spin when a winning combo lands on the reels. The symbols from the combo are locked in place and the game starts a respin. Any further occurrences will also be locked and another respin is awarded until no further matching symbols land on the reels. Wins are then evaluated and paid accordingly. This can potentially lead to big multi-line wins. At the end of each Streak, the symbols are unlocked for the next free spin.

#### More Greek Mythology

The Greek mythology theme has proven very

popular with gaming enthusiasts, subsequently finding its way onto countless slot reels. Virtually every game provider has at least one such slot in their portfolio. So play with the gods on their mighty reels in Zeus III and Zeus 1000 from WMS, or go for jackpots that are out of this world in Divine Fortune from NetEnt. Want to see super-expanding reels? Then try Hercules High & Mighty from Barcrest.

Want even higher

multipliers? Sure, why not? Give 300 Shields from NextGen Gaming a spin to experience a massive x300 win multiplier on the final level of the free spins round. Or go for the quirky Donuts slot from Big Time Gaming, where a separate reel set will award multipliers for the bonus round, occasionally going well over x100.

#### An Ordinary Final

#### Verdict

This slot sees us, ordinary mortals, against the gods and their beastly creatures. That just about sums up Zentaurus from Merkur Gaming. It will be a mighty challenge to spin the reels on this high-variance game, but the rewards can be heavenly. Hitting several multiplier wilds or the top pay for five-of-a-kind Zentaurus symbols will be an exhilarating moment time and again. Please keep in mind the high volatility of this slot, though, as while it can reward handsomely, on occasion it can also quickly drain your balance.

### Lutadora indiana Vinesh Phogat é desclassificada dos Jogos Olímpicos de Paris

A lutadora indiana Vinesh Phogat foi desclassificada de competir por uma medalha de ouro nos Jogos Olímpicos de Paris após falhar no ato de pesagem por apenas alguns gramas, conforme anunciado pela Associação Olímpica Indiana (AOI) na quarta-feira.

Phogat, que se tornou uma das faces de protestos de alto nível contra um oficial esportivo poderoso acusado de assédio sexual a lutadoras femininas na Índia no ano passado, estava agendada para competir contra Sarah Hildebrandt dos Estados Unidos por uma medalha de ouro na categoria de peso de 50 quilogramas na quarta-feira.

No entanto, na manhã de quarta-feira, a AOI anunciou que "apesar dos melhores esforços da equipe durante a noite, ela pesou alguns gramas acima de 50 quilogramas esta manhã."
