Poker tool software company

PokerTracker Software, LLC is the name of a poker tool

software company that produces the PokerTracker line of poker tracking and analysis

software.[1][2] PokerTracker's software imports and parses the hand histories that

poker sites create during online play and stores the resulting statistics/information

about historical play into a local database library for self-analysis, and for in-game

opponent analysis using a real-time Head-up display.[1]

The software allows the user to

monitor each poker session's profit or loss, hands played, time played, and table

style. It calculates and graphs statistics such as hands per hour, winnings per hand,

winnings per hour, cumulative profit and loss, and individual game profit and loss

across multiple currencies.

Products [ edit ]

The logo associated with PokerTracker

3

PokerTracker Software, LLC produces poker analysis software. Examples include

PokerTracker Holdem v2, PokerTracker Omaha v2, PokerTracker 3 Hold'em (PT3) for Texas

Hold 'em, PokerTracker 3 Omaha (PTO) for Omaha Hold 'em, PokerTracker Stud for Stud

poker, and TableTracker.[3] The company previously developed the PokerAce Head-Up

Display, also known as PokerAce HUD or simply PAHUD, which provides real-time

information for live online poker play;[4] the functionality from this formerly

separate application was eventually incorporated within PokerTracker 3. Collectively,

the company's software has been described as "among the most comprehensive software

programs in the online poker industry" by PokerSoftware.[5] The company subsequently

developed PokerTracker 4 in 2012 and 2013, which is its most recent software

development.

PokerTracker 3 [ edit ]

The general info tab view of a sample database in

PokerTracker Holdem v3.00 beta 29, including user customized columns such as final

tables and highest percentile finish.

In September 2009, the company announced that as

of March 31, 2010, PokerTracker Holdem v2 would no longer be supported. The decision was made because PokerTracker 3 had been released on May 15, 2008, nearly two years prior to the end-of-life date. The company felt that discontinuing support of v2 would avail resources which could be dedicated to improving PT3 and providing exceptional customer service.[6][7] Similarly, on December 31, 2010, PokerTracker Omaha v2 would no longer be supported, as its features have been completely integrated into the PokerTracker 3 product line.[8]

PokerTracker 3 supports online poker from the following poker networks and/or sites: 888 Poker Network, Bodog, Boss Media, Cake Network, Cereus Poker Network, Entraction Poker, Everest Poker, Full Tilt Poker, IPoker, Microgaming, Merge Gaming Network, OnGame, PartyPoker, PokerStars and Winamax.[9] PokerTracker is available natively for both Microsoft Windows and Mac OS X-based computers.[7]

PokerTracker 3 competes against several similar programs.[10] According to Total Gambler, its most notable competitors are Hold'em Manager and PokerOffice,[10] while Pokersoftware considers only Hold'em Manager to be a serious competitor.[11]

PokerTracker 4 [ edit ]

PokerTracker 4 is poker tracking software that is designed for several types of online poker: No-Limit, Limit, or Pot-Limit cash games, Sit N' Go's and Multi-Table Tournaments for both Texas Holdem and Omaha players.[12] It is compatible with almost all online poker websites' software and interfaces.[13] PokerTracker 4 began public beta testing in March 2012.[14] In August 2012, the company commercially launched a Microsoft Windows version of PokerTracker 4.[15] In January 2013 as PokerTracker version 4.05.10 was rolled out, the company began alpha testing an Apple OS X version of the software.[14][16] PokerTracker 4 was produced from scratch rather than by refining PokerTracker 3 and other earlier versions.[17]

On most online poker sites, players can have the client software create a locally stored text file that records the hand history as shown in the 'Sample Hand History' example. These hand histories summarize the details of the hand in a format that can be parsed by computer software. PokerTracker reads these files and extracts the relevant information, which it converts into a database for later review or statistical analysis.[11] The software is capable of combining hand history details of multiple accounts from different online poker services, which allows a user to aggregate his or her data.[18] Statistical summaries can be consolidated from different poker sites regardless of whether the user's screen name is the same at each site.

PokerTracker is capable of analyzing cash ring games in which players play for cash during each hand, sit and go tournaments in which players compete for set prizes after the prescribed number of competitors join the tournament, and multi-table tournaments in which players compete for tournament prizes based on the total number of entries at the scheduled start time. Statistics can be tracked by position, session, tournament, best & worst hands, and hand results. This helps the user analyze statistics based on starting hand or final hand. The software also enables the user to replay any specific hand.[19]

The software's database uses tournament summaries such as the 'Sample Tournament Summary' example and hand histories to provide a three section summary (see infobox screenshot). The top section of the general information tab provides tournament summaries of profit/loss as well as ordinal placement summary. The other sections summarize situational statistics based on the level of the blinds and the starting hand. Additional tabs in the software produce detailed information for various statistical interests.

PokerTracker's probability graphs, as well as historical statistics of the hands a user and his or her opponents have played, enable the user to analyze conditional statistical possibilities and optimal betting amounts. The situations it analyzes are conditional on the opposition's playing characteristics and the player's position relative to the dealer.[20] Graphs can be produced for a single session or for any part of one's playing history.[19] One of the biggest improvements in PokerTracker 3 over PT2 is that it is fully customizable so that all statistics and reports can be tailored to the individual user.[11][21] The Guardian claims most serious players use PokerTracker during online play to constantly calculate situational optima.[22]

PokerTracker 3 version v3.00 beta 29 Profit graph

PokerTracker 3 is also

known for its integrated heads-up display, a transparent video overlay data presentation that makes statistics and notes are readily available during play. The HUD allows an online poker player to focus his attention on the poker table he or she is playing at, rather than on the PokerTracker application. The HUD provides a vast array of realtime statistics for in-game analysis, customizable to the user's preference.[19] In addition to the statistics available constantly during play on the poker window, detailed statistics are available in a pop-up window, accessible via a single mouse click.[23] Marbella Slim of the Daily Star used the vision of Arnold Schwarzenegger's Terminator character in an analogy with the HUD: "In some scenes, you get to see what the robot Terminator is seeing and he has all these data streams in front of his vision - it's a HUD or a head-up display." [24] Unlike other poker tracking products, PokerTracker 3 includes a HUD as part of the basic program.[11] The PT3 HUD, which automatically overlays a player's opponents' statistics next to their avatars, is essentially a built-in version of the formerly available PokerAce HUD.[21]

PokerTracker

v2 will no longer be supported after March 31, 2010.

PokerTracker 3 also offers a

monthly subscription-based service called TableTracker. TableTracker is an integrated service that automatically identifies ring tables with competition suitable to the user's playing style.[21] PokerTracker's servers constantly monitor which players are playing and what tables they are playing at on various major poker sites,[25] which allows TableTracker to find the weakest players across multiple online poker websites.[19] The user can search based on the software's built in scoring system or any other statistics of his or her choosing.[25]

Use and legality [ edit ]

PokerTracker

3 includes a HUD overlay as seen in this Pokerstars online poker session

Serious poker

pros and casual amateurs alike can benefit from the poker tracking software,[26] and poker magazines such as Card Player repeatedly remind poker players of the usefulness

of tracking software.[27][28] Total Gambler says that in addition to experience and skill the other necessity for a gambler to become a professional poker player is a good software package such as PokerTracker.[29]

Several websites portray PokerTracker as either the world's leading or the world's most popular poker tracking software. For example, Pokersource describes it as "the most popular poker tracking and analysis software available"[2] and Party Poker describes PokerTracker as "the original and largest piece of poker tracking software".[21] PokerSoftware says "Poker Tracker has been the industry standard ... for years".[11] Total Gambler says that for more than a two-year period PokerTracker 2 was the "prominent force in online poker tracking", but at the time of its December 2008 review it speaks of this leadership position in the past tense, noting that PT3 had not yet been "fully released" at the time of its testing.[10]

Major online card rooms forbid the use of software that gives a player an "unfair advantage." This typically includes software that allows players to share their hole cards with other players during live play and software that automates decision making. Since PokerTracker software doesn't fit into either of these categories it is generally allowed on most sites, including industry leader PokerStars.[2][30] Legality aside, some players feel the use of PokerTracker takes away from the game; for example, Victoria Coren of The Guardian remarks "there is only one downside [to using PokerTracker]. Where's the bloody fun in it?"[22]

## 3. 20betano :segredos apostas futebol

Sob as ruas de Sevilha – a cidade alcunhada “El Sartén”, frigideira da Europa, onde temperaturas do verão regularmente atingem o pico 40C - uma estratégia para arrefecer 5m (cerca dos 4 milhões) está levando-a no tempo.

A técnica persa milenar de "qanat" apresenta canais subterrâneos cheios com água e eixos que trazem o ar mais frio para a superfície. Sevilha está fazendo isso, adaptando um qANAT experimental 1992 usar energia renovável - 20betano uma nova reviravolta- bombeando as águas até os topo dos edifícios onde ele vai escorrer dentro das paredes refrigerálos Até mesmo bancos serão refrigerado...

Parece um luxo, mas não é nada do tipo. O calor tornou-se uma ameaça líder à saúde para as cidades e nem apenas 20betano Sevilha! No ano passado 645 pessoas morreram de superaquecimento na Phoenix (no último mês) Os caminhões dos bombeiros da Fênix agora carregam gelo embalados nos sacos corporais que são usados como água fria – terapia com imersão rápida no frio durante o treinamento das vítimas ao longo desta etapa - os primeiros

socorristas aprenderam através dessas experiências há alguns anos a fim rápido  
O serviço de bombeiros 20betano Phoenix está agora usando terapia por imersão com água fria para cada pessoa que encontrar sinais da insolação.

{img}: Anita Snow/AP

Phoenix também não é um outlier. No hajjo deste ano, a peregrinação muçulmana à Meca ; estima-se que 1.300 pessoas morreram no calor superior 51C - mais da metade do caminho para o ponto de ebulição água's mundo "um nível tóxico e faz as células humanas cozinharem sangue espessado corta oxigênio ao cérebro O extremo 20betano Nova Deli matou 100 indivíduos nos últimos três meses sozinho – provavelmente uma vasta contagem abaixo dos trabalhadores direita Qatar foi considerado inseguro trabalhar fora fator

As cidades não são apenas onde o aquecimento rápido do nosso planeta é mais alto, devido ao efeito de concentração dos betão e asfalto ou à relativa falta natural fatores como lagos refrigerando-se os solos. Eles também estão aonde nossas espécies cada vez maiores urbanas terão que enfrentá-lo; assim sendo as arquitetas (planejadores) das ruas da cidade procuram maneiras para reduzir aquela temperatura – por exemplo: água fria qanat abaixo delas!

Algumas cidades agora oferecem centros de resfriamento, onde você pode escapar do calor. Embora a maioria das pessoas não queira usá-los regularmente Há mudanças políticas que podem ajudar: leis protegendo os trabalhadores e planos para responder às ondas térmicas capazes da identificação dos locais mais quentes 20betano uma cidade;

Muito é feito de plantios arborícola, como o esforço da Cingapura para semear mais do que 7m novas árvores e espaço verde 20betano geral: parques ou jardins podem oferecer uma enorme quantidade. Sevilha está instalando toldos ao longo das ruas por sombra; LA faz parte dos vários locais experimentando "calçada fria", emprega um tipode tinta capaz...

Um número crescente de cidades está experimentando telhados verdes, cobertos com vida vegetal ou "telhados brancos" como os da Nova Deli. E o arquiteto deixa 20betano imaginação correr solta; 20betano Abu Dhabi por exemplo Arup projetou uma torre que possui telas dobráveis controladas pelo computador e abertas a fecharem-se à semelhança das flores baseadas na posição solar

'Eu não tinha ideia de que verões quentes poderiam matar': como o apartheid climático divide Delhi - {sp}

A arquitetura vernacular também está experimentando um modesto renascimento: casas que dispensam ar condicionado 20betano favor de varandas, ventilação cruzada e piscinas com água são cada vez mais populares. Os planejadores da cidade estão lembrando-se das cidades onde pátio frondosas ou arcadas podem proteger contra o sol;

Eles também estão lembrando que adobe e pedra absorvem calor melhor do que o concreto; assim como cúpulas, grandes janelas ndia tradicional japonês "breezeway" corredores tradicionais de passagens 'bowli' indianos tais Como na muito elogiado Pearl Academy of Fashion 20betano Jaipur. Costumávamos falar sobre casas inverniais agora talvez nós devemos ver as suas residências."

Mas há uma crescente ansiedade de que muitas dessas ideias – sustentáveis e bem pensadas - sejam consideradas relativamente marginais, quase totalmente rejeitadas pela indústria do desenvolvimento convencional como sendo muito caras. A China recentemente despejou mais concreto 20betano dois anos comparado aos EUA durante todo o século 20

Em vez disso, os urbanistas temem que muitas cidades estejam voluntariamente entrando na armadilha do ar condicionado. Por agora vamos deixar de lado o fato dele ser desigual (o condicionamento aéreo é caro e não está disponível para todos), ou mesmo aumentar as temperaturas ao vivo 20betano até um grau mais alto; Ou seja uma grande drenagem da energia – como observa Rowan Moore dos Observadores: Os EUA gastam muito menos no clima doméstico quando se trata das pequenas coisas).

A aldeia Dongxiaokou, no exterior de Pequim tem um importante centro para a reciclagem dos antigos produtos eletrônicos – incluindo ar condicionado abandonado.

{img}: Kim Kyung-Hoon/Reuters

Sim, pode esfriar o "sanctum interior", como George Monbiot chama isso para os privilegiados

ricos 20betano bairros mais folhosos enquanto comunidades periférica. Mas se apoie na muleta muito difícil e ela possa quebrar-se!

Um dos principais efeitos das ondas de calor, que enviam demanda por eletricidade subindo e causam tempestades extremas 20betano redes elétricas estressantes é causar apagões. Apagar significa não mais ar condicionado Um estudo recente sugeriu um blackout com duração apenas dois dias poderia hospitalizar Mais da metade do Phoenix residentes E matar 12.000 pessoas principalmente nas suas próprias casas É porque o autor Jeff Goodell adverte sobre uma "Katrina quente": você pensou no furacão na Nova Orleans foi ruim?

Nossa dependência de ar condicionado significa que continuamos a jogar edifícios 20betano cima dele – enormes blocos do espaço interior sem pátios ou janelas operáveis, e com fachada contínua vidro. Os EUA exportaram seu modelo urbano para países onde simplesmente não se adequa ao ambiente local ; condição aérea indica cidades agora construir nas maneiras totalmente insensórias lugar

Em 2024, Kanhaiya Manik Kare, um vendedor de balões com 41 anos 20betano Nova Deli no auge da 20betano vida entrou e morreu depois que trabalhou fora por seis horas durante temperaturas 48oC. "Eu fiquei louco", disse a esposa dele Mangla Mannak Kare

Em poucos dias ela estava na rua, com seus filhos vendendo os mesmos balões por 10 rúpias (9p) cada. "O vento era tão quente recentemente que eu e meus filho adoecemos", disse a mãe dela sem economia de tempo para ficar lá fora

Talvez Kanhaiya poderia ter sido salvo pela nova "clínica de calor" 20betano Nova Deli, que BR banheiras cheias do gelo - a mesma ideia básica dos sacos corporais da polícia. Pode tratar cerca 50 pessoas por semana e 33 milhões delas estão na cidade ndia!
