No entanto, de acordo com relatos informais de jogadores, o Aviator pode ser uma forma emocionante de se ganhar a vida. É importante, no entanto, permanecer cauto e não se deixar seduzir pelos prêmios que o jogo oferece.

Premier League Outright Odds for 2024/24

English Premier League betting is the hallmark of any bookmaker. The popularity of the English championship is undeniable: the strongest teams compete (according to the UEFA ranking, England occupies the top spot) and the biggest football stars play here (according to Transfermarkt, the total value of EPL players is twice as high as in any other championship). The number of available Premier League odds options is an excellent indicator of how good a particular bookmaker is at offering football bets.

In addition to 1/X/2 markets, bookmakers also offer outright – normally, for the entire season. The most popular format is to bet on the tournament winner. In the EPL, such bets are usually called Premier League winner odds 2024/24.

Premier League Contenders Bet365 Odds Manchester City 1.66 Arsenal 5.50 Liverpool 9.50

Manchester United 12.00 Chelsea 13.00 Newcastle United 17.00 Tottenham Hotspur 51.00

Brighton 81.00 Aston Villa 151.00 West Ham 501.00

Manchester City has the best odds to win the Premier League. The club has won the main trophy of England for three consecutive years, and, for now, experts believe this streak won't stop. Last winter, Josep Guardiola extended his agreement with City until 2025, and over the summer, the club was able to strengthen decently (Gvardiol, Nunes, Doku, Kovacic) without losing any of the key players (only Gündoğan left the starting lineup).

Arsenal and Liverpool are also stand out among the Premier League favourites. The silver medalists of the last two seasons were very active during the transfer window, spending a net amount of 167 and 111 million euros, respectively (according to Transfermarkt). The success of these acquisitions can only be determined at the end of the season, but the beginning suggests

that the battle for the EPL trophy will be intense.

Most Wins in the Premier League

Up until the 2024/24 season, 24 clubs have won the English Premier League. Manchester United has been the most successful with 20 victories. Liverpool with 19 trophies is their closest competitor.

Manchester City is the reigning Premier League champion. Their last year victory was the ninth in the club's history. You can check out the list of other league champions in the table below:

Team	Number of the Premier League title wins

Premier League Relegation Odds 2024/24

There is a reverse option for betting on the Premier League winner, which is staking on the relegation of a specific team. According to the rules of the English football championship, clubs finishing in 18th to 20th place get relegated to the lower division. Such betting mode implies selecting a team to leave the league at the end of the season.

The favourites for this type of bet are often newcomers who earned promotion based on last year's results. Despite the fact that the EPL provides significant financial incentives to these clubs (approximately 210 million dollars over three years, according to NBC Sports), it's not easy to level the class difference of players over the summer. This season, Burnley, Sheffield United and Luton Town were promoted to the Premier League. Here are the relegation odds for these and other teams:

Team	Bwin Odds	Luton Town	1.16	Sheffield United	1.25	Burnley	3.00	Wolverhampton Wanderers	3.75	Everton	3.75	AFC Bournemouth	4.00	Nottingham Forest	6.50	Fulham	9.00	Brentford	13.00
Crystal Palace			17.00																

Premier League Top Scorer Odds 2024/24

Another Premier League outright odds option is a bet on the top scorer of the tournament: you pick the player who will score the most goals against rivals by the end of the season. In England, this award is called the Premier League Golden Boot, which has been awarded since the 1992/93 season.

Erling Haaland significantly leads in terms of betting odds. The Norwegian forward set the Golden Boot record in his debut EPL season, scoring 36 goals. Moreover, he scored them in 35 matches, which is more than one goal per game. According to bookmakers, Mohamed Salah and Heung-min Son are Erling's main rivals this season.

Name	Bwin Odds	Erling Haaland	1.16	Mohamed Salah	17.00	Heung-min Son	17.00	Darwin Núñez	34.00	Alexander Isak	34.00	Marcus Rashford	41.00	Bukayo Saka	41.00	Evan Ferguson	41.00	Julián Álvarez	41.00	Gabriel Jesus	51.00

Past Premier League Top Goal Scorers

Thierry Henry is the most frequent winner of the Premier League Golden Boot award, having received it 4 times. Three players have received this award three times each – Harry Kane, Mohamed Salah, and Alan Shearer. Erling Haaland, a player for Manchester City, is the current prize holder. The Norwegian continues to compete in the EPL and may defend the title of the top scorer.

About Premier League Betting

The Premier League is the top division in the system of football in England. The championship features 20 teams. The tournament is held in a round-robin format, where each club faces every other club twice: at home and away. In total, there are 38 rounds. The winner of the championship is determined by the number of points gained in all matches. The three worst teams at the end of

the season are relegated to the lower division – the Championship. In case of a tie in points between several clubs, the following criteria are compared:

Goal difference;

Goals scored;

Points gained in the head-to-head record between such teams (If the champions, relegated teams or qualified teams for UEFA competitions cannot be determined);

Away goals scored in the head-to-head record between such teams;

Playoffs.

The top four teams of the EPL 2024/24 season will secure spots in the group stage of the Champions League for the following season. The club finishing in fifth place will perform in the Europa League group stage.

At the end of the season, the Football Association of England, the Professional Footballers' Association, and the Football Writers Association present awards to the top players and the best manager. Here is a list of nominations and the current winners:

Premier League Manager of the Season – Josep Guardiola (Manchester City);

Premier League Player of the Season – Erling Haaland (Manchester City);

Premier League Young Player of the Season – Erling Haaland (Manchester City);

Premier League Goal of the Season – Julio Enciso (Brighton);

Premier League Save of the Season – Kepa Arrizabalaga (Chelsea);

PFA Player of the Year – Erling Haaland (Manchester City);

PFA Young Player of the Year – Bukayo Saka (Arsenal);

FWA Footballer of the Year – Erling Haaland (Manchester City).

Premier League Markets on UKClubSport

The status of the strongest national football championship makes the Premier League one of the best leagues for football betting. In addition to 1/X/2 options, the selection of markets to bet on EPL matches include many extra markets: O/U goals/cards/corners, Asian handicaps, Exact Score, HT/FT etc. If desired, you can place player props, implying betting on a particular player to score a goal, footballers to score the first/last goal of the game, as well as combo bets and so on. Outright betting fans will also be able to find something interesting for themselves. In addition to standard Premier League odds 2024/24 options or bets on the top scorer, there are also bets on teams to make it into the top 6 of the championship, the best tournament assist provider, footballers to win the PFA Player of the Year, and so on.

Factors to consider when betting on the Premier League

The main feature of English club football is its dense schedule. In addition to domestic league matches, Premier League teams perform in the Carabao Cup and FA Cup. Moreover, the top clubs from the previous season compete in European tournaments. Participation in all these competitions often leads to top clubs playing 3-4 games in 10 days. Carefully monitor the schedule of past and upcoming matches for each FC. The favourite in a match may field a non-optimal lineup, and the underdog will take advantage of this.

According to many fans, the physicality and roughness of play are among the general trends in the league. However, if we have a look at last season's statistics, we'll see that Premier League teams receive fewer red cards than any other top league. On average, referees show 0.79 red cards per matchday. For comparison: as for other top leagues, the Netherlands (1.20) and Germany (1.26) are closest to this indicator. If you are thinking of betting on O/U fouls or whether a red card will be shown, be careful and study the statistics in detail.

Tempestades graves bet364 apk Houston dejan al menos siete muertos y cientos de miles sin electricidad

Mientras los funcionarios evalúan los daños causados por las tormentas destructivas en el área de Houston que dejaron al menos siete muertos y dejaron sin electricidad a miles de personas en temperaturas récord, los residentes en el Sudeste y la Costa del Golfo se enfrentan a una amenaza de mal tiempo severo hasta el sábado que podría traer otra ronda de lluvias torrenciales y tormentas eléctricas graves.

Un complejo de tormentas con vientos de hasta 100 mph y un tornado dejó un rastro de destrucción el jueves a través del área de Houston que dañó varios rascacielos y provocó apagones que podrían durar semanas en medio de temperaturas récord.

Al menos cuatro personas murieron como resultado de la tormenta en Houston, incluidas dos que murieron después de ser golpeadas por árboles caídos y una tercera que murió en un accidente de grúa, dijo el jefe de bomberos de Houston, Samuel Peña, el jueves.

Otros tres muertos por la tormenta fueron reportados en el condado de Harris el viernes por la noche. Un hombre colapsó mientras intentaba mover un poste eléctrico caído, y una mujer murió después de que un rayo golpeará la remolque en el que se encontraba y provocara un incendio, dijo el alguacil del condado de Harris, Ed González, en un mensaje en X. González dijo que otra víctima que había perdido la energía eléctrica supuestamente fue encontrada inconsciente el viernes por la mañana mientras intentaba cargar su tanque de oxígeno en su camioneta.

"Desgarrador! Mis condolencias a las familias que perdieron a un ser querido durante el evento de mal tiempo severo de ayer", dijo González.

Las tormentas dañinas serán seguidas por temperaturas altas en los 90 hasta el fin de semana y más allá mientras muchos están sin aire acondicionado.

Más de 531.000 clientes en el condado de Harris permanecen sin energía el sábado por la mañana después de la línea de tormentas, según PowerOutage.us. Las autoridades han advertido de que restaurar la energía a todos los clientes será un proceso prolongado.

CenterPoint Energy - el proveedor eléctrico principal en la zona - dijo que el sistema de tormenta causó "daños extensos al sistema de transmisión y distribución eléctricas de la empresa". Miles de trabajadores están siendo desplegados para ayudar con los esfuerzos de restauración, dijo la empresa.

Con el calor abrumador, la Ciudad de Houston abrió centros de enfriamiento para los residentes el viernes, dijeron los funcionarios en un comunicado de prensa. El índice de calor, que mide lo que el cuerpo siente realmente, podría alcanzar los tres dígitos la próxima semana, aumentando los riesgos para la salud debido a la amenaza más letal del clima.

"El patrón meteorológico se está desplazando hacia un patrón caluroso y seco a partir del sábado, por lo que será importante tener una forma de mantenerse fresco", advirtió el Servicio Meteorológico Nacional el viernes.

El alcalde de Houston, John Whitmire, quien firmó una declaración de desastre local para la ciudad el viernes, recorrió el área downtown y dijo que la "devastación es significativa".

"Instamos a todos a mantenerse alejados de la zona por su seguridad y para permitir que el personal de obras públicas realice sus trabajos vitales", dijo Whitmire.

El servicio meteorológico clasificó la línea de tormentas severas que se movió a través de Texas y Luisiana el jueves como un derecho, un evento meteorológico potencialmente destructivo caracterizado por daños generalizados asociados con una larga vida línea de tormentas eléctricas.

Los derechos tienen ráfagas de viento consistentes de 58 mph o más a lo largo de un camino de al menos 400 millas, junto con varias ráfagas de viento separadas de más de 75 mph. La determinación se hizo en base al largo del camino y la intensidad.

Posibilidad de inundaciones repentinas y ráfagas de viento dañinas el sábado

Las posibilidades de lluvias torrenciales excesivas y ráfagas de viento dañinas persistirán en partes del Sudeste hasta el sábado, dijo el Servicio Meteorológico Nacional.

Desde el Sudeste hasta el noroeste del Golfo de México, las nuevas tormentas eléctricas en desarrollo traerán el potencial de inundaciones repentinas y ráfagas de viento dañinas el sábado, según el Servicio Meteorológico Nacional.

Se ha emitido un nivel 2 de 5 de riesgo leve de tormentas eléctricas graves en partes del Sudeste hasta Carolina del Norte el sábado, según el Centro de Predicción de Tormentas.

"Parece probable que ocurran tormentas eléctricas aisladas a dispersas en partes del Sudeste y Carolina del Norte el sábado, y partes del Upper Midwest", dijo el centro.

"Se espera que los vientos dañinos sean la principal amenaza, pero también pueden ocurrir granizo severo ocasional y uno o dos tornados".

También se ha emitido un nivel 2 de 4 de riesgo de lluvias excesivas para parte de la costa norte del Golfo el sábado debido a la amenaza de inundaciones repentinas, urbanas y fluviales, dijo el servicio meteorológico.

Se prevé que la lluvia continúe el sábado en el Medio Atlántico y los Apalaches centrales, donde ocurrirán ocasionalmente inundaciones repentinas.

El domingo, se esperan tormentas eléctricas sobre las Llanuras Altas Centrales y se extenderán al este por la noche. Las mayores posibilidades de clima severo serán sobre partes de Nebraska y Kansas, con un nivel 2 de 5 de riesgo de tormentas eléctricas graves emitido por el Centro de Predicción de Tormentas.

"El granizo grande y los fuertes vientos serán los principales peligros, aunque también será posible uno o dos tornados", dijo el centro.

Para finales de semana, las posibilidades de tormentas eléctricas disminuirán en la mayor parte del Sudeste y el Medio Atlántico, dijo el servicio meteorológico.
