**O presidente é um rei? O Supremo Tribunal Federal dos EUA pensa que sim**

Is the president a king? The BR supreme court thinks so. On Monday, in its very last ruling of the term, the chief justice, John Roberts, writing for the court's six conservatives, held in *Trump v United States* that Donald Trump has "absolute immunity" from criminal prosecution for all acts that can be interpreted as part of his official duties, and "presumed immunity" for all other official acts.

The ruling dramatically extends executive immunity to past and future presidents for illegal or even treasonous acts they carry out while in office and makes the ex-president completely immune from criminal prosecution for his role in the January 6 insurrection.

The court said that Trump cannot be prosecuted for any of his "official acts" leading up to the insurrection, including his efforts to pressure Mike Pence and his efforts to militarize the Department of Justice to force some states to reverse their election results. The majority of the criminal case against Jack Smith for Trump was also annulled.

What remains of the January 6 prosecution will now be sent to a lower court, which will be tasked with determining what charges, if any, can be brought against Trump under a new standard of executive immunity. This ruling, if it stands, will have no effect until after the November elections of this year and will likely prevent any prosecution of Trump for his efforts to overturn the 2020 election.

The stature of criminal and impeachable Richard Nixon was once summarized by the saying: "Well, when the president does it, that's not illegal." The court has now transformed this vulgar saying into law.

It is difficult to overestimate the damage that this decision will do to the integrity of our democratic system of government, or the depth of the offense to the principles of separation of powers and the Rule of Law. In a decision that is almost entirely partisan, the conservative majority of the court elevated the president to a position that no one else can occupy in a republic: one with a broad right to commit criminal acts in the name of his own interest, without fear of legal consequences. The criminal law does not apply to the president; while in office, he exists in a state of immunity similar to that of the Purge, with the ordinary rules of social and civic life suspended for him, allowing him to use the apparatus of power to indulge his vanity, reward his friends and punish his enemies as he sees fit.

This is one of the most consequential and frightening decisions of the Supreme Court in our lifetime. On the eve of an election that Trump may well be restored to the presidency, the court has officially declared that he cannot be held responsible for abuses of power in the criminal court.

In the *Trump* holding, the majority of the court made a fragile distinction between the immunity that is granted to presidents for "official acts" and "official powers" - terms whose meanings are not clearly defined - and the criminal responsibility that Trump and other presidents still bear for "non-official acts". But these distinctions will likely be meaningless if any prosecutor, be it Smith or another, tries to use them. This is because of the fact that the scope of the president's powers and his official powers are so broad that they are difficult to distinguish from each other, and "official acts" and "non-official acts" of the president will likely be ambiguous.

The court also declares, unnecessarily, that the conduct in the January 6 prosecution of "official acts" cannot be used in future prosecutions of "non-official acts" - another protection for presidential conduct that will make future prosecutions more difficult. The president, however, still retains the power of pardon - which means that he has the right not only to commit crimes, but to guarantee impunity for his accomplices.

In practice, Trump - and any future president - will now be immune from prosecution - at least until after the next election - for any crimes he commits. This is a development that is uncontested by the legislative branch or the criminal law. It is a development that

radicalmente alterou a natureza do cargo. O presidente agora é menos como um funcionário democrático responsável do que um pequeno imperador, dotado pelo tribunal de um direito abrangente para exercer o poder à vontade, muito como o direito divino costumava abençoar as ações dos reis. Não há quase nada que ele não seja autorizado a fazer.

Absurdamente, como se desprezasse o público americano e suas aspirações históricas à liberdade, o tribunal alega que este novo estado de coisas foi imposto pelos fundadores - os mesmos
