And so it finally arrived at our doorstep. Close to a year and a half after the grand announcement at the London iGaming conference, Narcos, one of the most anticipated branded titles, has finally left the production table and rolled out across all NetEnt casinos. Right off the bat, it becomes entirely clear to us why it took so long. To call Narcos an ambitious undertaking would be an understatement to say the least. In NetEnt's take on the American crime series Narcos, the drug-fueled drama effectively expands its world into the online slot format where the traditional boundaries between videogames and slots are becoming increasingly blurred.

Everything

our sources told us about Narcos, and which was exclusively reported on our site, turned out to be true. It does indeed come with a setup of 5 reels, 3-rows and 243 ways to win. This is a great format and one that is actually a bit unusual for NetEnt.

Unsurprisingly, there are quite a few features to keep you busy here. In the main game, you'll benefit from the Locked Up feature which is a win-streak mini bonus, capable of delivering quite decent wins. There's also the Drive-by feature where you'll see bullets flying across the screen, randomly transforming high paying symbols into wilds. Available both in the main game and the free spins are the Walking Wilds, similar to the feature that was made famous in Jack and the Beanstalk, another popular title from NetEnt. Finally, there is the big showdown - the Free Spins feature. Frustratingly hard to trigger, but the key necessary to unlock the true potential. You can play it from between 0.20 and 400€ per spin across all devices.

Produced by Gaumont

for web television company Netflix, the first two seasons of Narcos are based on drug lord Pablo Escobar who became a dollar billionaire through the distribution and production of cocaine. In NetEnt's version, we're taken to the bustling streets of Medellín where we're immediately thrown straight into the crossfire. With Grand Theft Auto-inspired graphics, symbols on the reels include J, Q, K and A royal values with piles of cash, grenades, machine guns and handguns on them. You'll also see flamingos

and Cessna's as well as the characters from the TV series, namely José Rodríguez Gacha, Connie Murphy and DEA agents Steve Murphy and Javier Peña. The latter two are the most rewarding and will give you 15 times your stake for 5 across a full payline.

The wild

symbol is represented by the DEA badge and is of the same value as the agents. As per usual, the wild substitutes for all standard symbols bar the scatter and other special symbols. When part of a winning combination, the wild triggers the Walking Wild feature. You've seen similar features before - the wild stays on the reels and moves horizontally one position left with each spin. This continues until there are no winning wild symbols left.

Narcos (NetEnt): Features

In the main game, the Drive-by

feature may trigger randomly on any spin. When activated, a sequence is played where a thug unleashes a hail of bullets from a getaway car onto the reels. This is followed by random transformations of premium symbols into wilds.

There's also a kind of mini-bonus

known as the Locked Up feature. It becomes activated when 3 or more Locked Up symbols (with a picture of Pablo Escobar) appear on the same row. Once inside the feature, which is played on a new set, the Escobar symbols are moved together and assigned a win value of between 1 - 10 times your stake.

Fundamentally, what you get here is a

win-streak cluster mechanics based feature. Starting with 3 spins, only Locked Up and Golden briefcase symbols will appear on the reels. When 3 or more symbols connect, they form a winning cluster - when an Escobar symbol connects to a winning cluster, a random value of 1 - 10 times your stake is awarded. If, on the other hand, a Golden briefcase connects, one of the following will apply:

Multiplier - all coin values connected to the cluster are multiplied by x2 or x3.

- all coin values connected to the cluster are

multiplied by x2 or x3. Upgrade Symbols - multiple upgrade values in increment of 1 times your total bet are added to the symbols.

- multiple upgrade values in increment

of 1 times your total bet are added to the symbols. Big Starting Value - the Golden briefcase symbol is given an extra starting value.

Each time a symbol connects to the

cluster, the spin count resets to 3. The feature ends when no new symbols are added to the cluster. With a hit frequency of 1 in 124 spins, the Locked Up feature triggers far more frequently than the Free Spins feature which, by comparison, has a hit frequency of 1 in 351 spins. The Locked Up feature gives you a chance to pocket up to 271 times your total stake.

Last, but certainly not least, we have the epic climactic Free Spins

finale - a shootout that is played when you land three scatter symbols on reels 1, 3 and 5 on the same spin. Starting with 10 free spins, you'll benefit from the Drive-by feature being in play on every spin which also means there's potential for the Walking Wilds feature to come into play. As you've already seen, the Free Spins feature is hard to trigger, but it's also where most of the monies at. When the smoke clears, you could be looking at a win of up to 1506 times your stake.

Narcos (NetEnt): Verdict

Narcos

brings with it some serious firepower but seems to have forgotten to load the guns. For some reason, NetEnt keeps insisting on these low max wins and ultimately, Narcos just falls into the same old NetEnt cliché, which feels like such an incredible waste given the fact that it otherwise has everything going for it. The visuals are excellent and

the overall production quality is jaw-dropping, but it lacks punch, simple as that.

Not

only is Narcos trying hard to entertain the player through impressive in-game cut-scenes, it's also quite a feature heavy slot as you have seen. What it leads to in this case is a Free Spins feature that seems to drop less frequently than the D in Bonanza. The difference here is that the relatively low potential hardly makes it worth the wait.

It pains us to say this, but we're afraid NetEnt's Narcos only manages to reach the rank of a simple drug dealer rather than the mighty drug lord it was aspiring to be.

### Dmytro Kuleba, ministro de Relaciones Exteriores de Ucrania, ofrece su renuncia

Cuando las fuerzas rusas invadieron Ucrania a principios de febrero de 2024, Dmytro Kuleba, ministro de Relaciones Exteriores de Ucrania, comparó el asalto con la invasión de Alemania nazi en la Segunda Guerra Mundial.

"Ucrania derrotó a ese mal y lo derrotará de nuevo", tuiteó el Sr. Kuleba. Luego, esbozó la misión del país: "Detener a Putin".

Ese siguió siendo el mensaje central del Sr. Kuleba durante 30 meses mientras movilizaba el apoyo internacional de la guerra, cortejando aliados antiguos y nuevos y convirtiéndose en uno de los rostros más reconocibles que representan la causa de Kiev.

El Sr. Kuleba fue uno de los funcionarios de más alto rango del gabinete que ofrecieron renunciar el miércoles, según el presidente del parlamento ucraniano. Parecía ser el mayor reajuste del gabinete del presidente Volodymyr Zelensky desde el inicio de la guerra, un movimiento que

Zelensky describió como necesario para "lograr todos los resultados que necesitamos". El Sr. Kuleba no hizo comentarios públicos al respecto.

Como principal diplomático de Ucrania, el Sr. Kuleba buscó obtener tanto apoyo militar como político. Fue un defensor entusiasta durante el esfuerzo de varios meses, finalmente exitoso, para convencer a los Estados Unidos y Alemania de que suministraran el sistema de defensa aérea Patriot a Ucrania para protegerse de los ataques de misiles rusos.

"Ucrania es actualmente el único país del mundo que está sujeto a ataques de misiles balísticos casi todos los días", dijo durante una conferencia de prensa en marzo. "Los Patriots deberían ser desplegados aquí, en Ucrania, para proteger vidas humanas reales y no permanecer en lugares donde la amenaza de misiles es cero".

El Sr. Kuleba también ha estado activo en la promoción de los objetivos diplomáticos más ambiciosos de Ucrania: unirse a la alianza militar de la OTAN y convertirse en miembro de la Unión Europea. Ambos esfuerzos enfrentaron resistencia de algunos aliados, quienes temían que conceder la membresía a Ucrania provocaría aún más agresivamente al Kremlin.

El Sr. Kuleba es un diplomático de carrera que se unió al Ministerio de Relaciones Exteriores de Ucrania después de graduarse de la Universidad Taras Shevchenko en la capital, Kiev, donde estudió derecho internacional, según su biografía oficial. Además de los puestos en el Consejo Europeo y una breve estadía como embajador en línea, se centró en la diplomacia cultural, también brevemente encabezó la fundación de Ucrania para la diplomacia cultural.

Tenía 38 años cuando fue nombrado ministro de Relaciones Exteriores en 2024. El Sr. Kuleba fue el primer ministro de Relaciones Exteriores de Ucrania en visitar África y viajó a China en julio.
