From then on, players have to simply sit back, relax and enjoy their gameplay or betting sessions in the casino or mobile sportsbook.

Notable Mobile Features

Going deeper into the review, we're going to talk about some of the cool mobile features that the mobile platform has. The features that we're going to look out for include the in-play section, live stream and cash out.

These three features are features that most punters look for when they go to a mobile platform. You can say that these are the "three essentials" of a mobile sports betting platform. We will see if Bwin has all of them.

**In-Play** The in-play section of Bwin is a great and exciting section that allows you to place bets while they are happening. Unlike the regular sports section, you don't need to place a pre-match bet. In Bwin, in-play betting or live betting is available. Here, you can place a bet when the event is happening real-time. You'll be able to see the odds changing as the game changes, and you'll also see the scores going up as the event progresses. **Cash Out** Cash-out features are essential to in-play markets simply because they allow you to take your profits out if you think that the match isn't likely to go your way. Having a cash-out option is a proper risk management function. Bwin app offers this kind of feature to its players so that the players don't have to keep their profits locked in the bet until the event is done. However, the cash-out feature is only offered when the game has already progressed significantly. This means that not all betting events may have this option. **Bwin Live Streaming** Lastly, we will check if Bwin sports app offers a live streaming option that will allow you to watch games while you bet live. Fortunately, Bwin provides a live streaming feature on both its desktop and mobile versions. With this feature, hardcore sports fans can enjoy watching live games while checking up on their bets at the same time. Do take note that not all events can be live-streamed. You can go to the Live Betting page and see which matches can be streamed.
