1. The Impossible

Quiz

Although it may sound like a regular game of questions and answers, it's more complex. The Impossible Quiz is much more than meets the eye.

This game allows you to

leave your comfort zone and think critically. It makes your mind roam around in all

directions until it can find the correct answer.

Most of the questions in this game

have a lot of tricks, puns, and double meanings. That's why it takes work to find the correct answer. You get four options, one of them is the correct one, and locating the right one takes work.

Key Features

The game comes with pretty simple rules. Like most quiz-related games, this one comes with three lives, and with each mistake you make, you'll lose a life.

What's more challenging is that some of the questions come with bombs attached to them with a timer of about 11 seconds. You'll need to answer that particular question within that time; otherwise, you'll end up blowing your life for good.

Because of the ambiguous nature of the questions, you need a lot of time to think and ponder.
