TopSport is an ever-growing, Aussie-owned bookmaker that, in my view, offers a fairly impressive all-around product. They have some nice features available and I have found that they are a particularly favourable bookie for the more experienced and high-stake punters out there! And now, with this in mind, let's get into it and explore TopSport Australia in some more detail! To start with, once logged in, users are greeted with a clean and easy-to-navigate-through TopSport homepage. It is quite easy to locate anything you are looking for when on the TopSport app or website, and more importantly, I have found that loading times are quick, and while I have experienced it before, the platform rarely crashes and this is always a positive!

Moving on, if you want to actually start punting with TopSport, one of the first things you'll need to do is make a deposit. Users can deposit via a Credit/Debit card, BPAY, through POLi, a Paysafecard, or a bank transfer. While these options are good and quite standard, it would be good to see a PayPal and eWallets option here as well. Further, as well as depositing, users will hopefully need to consider the prospect of withdrawing at some stage during their time with TopSport. In this regard, users can withdraw funds to a nominated bank account via their Credit/Debit card or through a bank transfer.

And I bet you might be wondering about how fast this process is? Well, in my experience TopSport withdrawal times are decent without being amazing. They tend to take anywhere between 1-3 business days to be processed, and I would say that this is comparable with most Aussie bookies out there.

Next, I want to mention the customer service offering that users tend to experience with TopSport Australia. Firstly, I think I would be remiss if I did not mention that the TopSport support options here are operational 24/7, and I believe that this is always helpful for punters out there! In terms of the options themselves, TopSport provides users with a phone support line as well as an email contact which can help to resolve user queries or issues. I have typically found agents to be quite
