Playing at UKGC-licensed

casinos lets you take advantage of advanced responsible gambling tools, such as registering to a national 5 database (GamStop) to control your gaming habits even more.

However, no matter which casino you prefer, you must be at least 5 18 years old to gamble.

UK players can play at these UKGC-licensed casinos or any international casino that accepts them as 5 a member: both are legal.

Any operator that gets a license from

the UKGC can offer legal casino games (including roulette) 5 in both land-based and online forms.

The Gambling Act 2005 is the law that legalized gambling, and the UK

Gambling Commission 5 (UKGC) is the agency that regulates it.

If you want to play online

roulette in UK, you don't need to worry 5 about legality: all forms of gambling (both land-based and online) are legal in the United Kingdom.

The roulette game has a 5 simple

principle: you try to guess where the ball dropped on a spinning wheel will land. There are 37 or 5 38 numbers in total on this wheel, depending on the variant played. Except for one, half are red, and half 5 are black. This design allows many betting options to emerge. For example, you can bet on a single number. You 5 can try your luck with multiple combinations, such as all numbers from 1 to 12. Likewise, bets on which color 5 the outcome will be or odd/even numbers are also accepted.

Each of these betting

options has a different chance of winning. 5 For example, the odds of winning bets on a single number are very low, but bets covering 18 numbers (such 5 as red/black) have a very high chance of winning. Payment amounts are determined accordingly: bets with a

low chance of 5 winning payout big, and bets with high chances payout low. For your better understanding, a play roulette simulation will work 5 step by step as follows:

In

3D RNG games, you place your bet first. In live games, you have to wait 5 for the dealer's declaration that new bets are being accepted.

In any case, it is sufficient to

place casino chips, each 5 with a different monetary value, on top of the betting options on the roulette table. These chips represent your wager 5 and the numbers on them show the value of that bet. For example, if the chip reads "20", it stands 5 for a 20 GBP bet.

You can place chips on multiple positions at the same time, that is, you can place 5 multiple bets in a single round.

In 3D RNG games, you start the game by pressing the

"spin" button. In live 5 games, after all players have placed their bets, the croupier does it by spinning the wheel and dropping a ball 5 on it.

In any case, the ball will

land in a pocket when the spin ends. If your bet covers this 5 pocket, you will get a payout based on your bet type. Otherwise, you can try your luck again in the 5 next round.
