April 20, 2024 Matthew Pitt Senior Editor

PokerStars

recently gave an insight into its game integrity 2 team and recently launched another video showing how the world's number one online poker site deals with bots and other 2 artificial intelligence (AI).

Bots and AI have been around almost as long as online poker. Unscrupulous people will always try to 2 take shortcuts wherever there is money to be made. Bots and AI are a common way to do this.

What Is 2 a Bot?

A bot is essentially a piece of software that automatically plays online poker. The software analyses what's happened at 2 the table, then makes an automatic decision of what action to take. Usually, this is the most mathematically correct decision.

Bots 2 have grown more advanced over the years. Some can even share information if there is more than one of them 2 at the same table, giving them a massive advantage over a player playing fair.

Another type of AI does all the 2 same analysis before directing its user to make the correct decision, doing so in real time. Both types are banned 2 from all online poker sites and PokerStars takes the use of any banned software extremely seriously.

How Does PokerStars Combat Bots?

Just 2 like its Game Integrity team,

PokerStars has a dedicated team whose sole job is to combat bots and AI. It 2 is made up of data scientists, programmers and former professional poker players who actively seek out and punish illegal software 2 users.

PokerStars keeps its detection methods secret as

not to give the software creators hints on how to avoid detection, but 2 does reveal it uses a combination of hardware and software to track down AI users. The site believes it has 2 the best bot detection in the industry.

The team look for patterns and anomalies

across billions of hands. A rigorous investigation 2 takes place whenever a suspected bot is uncovered. The cheater's funds are frozen and redistributed to those players who lost 2 money to the AI, if it is determined the person under investigation is a bot user. The bot user is 2 then banned for life from playing at PokerStars.

How Effective Is The Bot Detection 2 Team?

PokerStars states 95%

of the bots it catches stem from its bot detection team, with the remaining 5% coming from 2 reports from players. Every bot claim is investigated so we'd urge you to report anything untoward to the PokerStars customer 2 support team who will ensure your claim is looked into.
