The best roulette strategy requires you to change the size of the bet based on your results. For example, when using the Martingale strategy, you have to double the bet after a loss and then reset to the initial bet after you win.

Evolution Arabic Roulette Review

Arabic Roulette (also known as rulit earabiin

) is one of Evolution Gaming's popular native speaking 8 roulette games.

It joins a

growing list of localised table games including London Roulette, Venezia Roulette, Deutsches Roulette and Svensk Roulette. 8 The idea behind these tables is simple. The dealer speaks purely in the native language of the customer.

That means 100% 8 of the

conversation and commentary in this game is in Arabic. This creates a comfortable and familiar experience for players 8 who speak the language. Of course, non-native speakers will feel completely out of the loop!

Filmed from Evolution's Malta studios, the

8 provider has tried hard to offer an authentic playing environment. Elaborate patterns and ornate walls fit perfectly into the Middle 8 Eastern theme. For more details on the game and how it works, continue reading our full Evolution Arabic Roulette review.

How

8 to play Arabic Roulette

Arabic Roulette is a single zero roulette game played on a

Huxley wheel. With this in mind, 8 this game plays out very much like a traditional

European or French roulette game. There are no additional side bets, 8 jackpots or bonus features. That means the house edge is a reasonable 2.70%.

As with any roulette game,

you bet in 8 which pocket you think a metal billiard will fall into. There is a vast range of betting options and styles 8 you can use to tailor make your strategy.

While

nowhere near as fast as speed roulette - members can enjoy a 8 pacey betting experience. The Arabic Roulette dealers are skilled in keeping the conversation flowing - and the ball rolling.

It should 8 be noted that the dealers in this game are outstanding. They are chatty and fun - communicating 100% of the 8 time in Arabic.

Arabic Roulette Strategy

As there is no

extra mechanics in this game, you can approach Arabic Roulette strategy in 8 the same way you approach a European or French game. Here are some frameworks you can use:

Low Risk:

Red or 8 Black

Thanks to the low house edge afforded by the single zero wheel - it's entirely possible to play a red/black 8 strategy. Simply bet on red or black exclusively during each game round. If you're lucky, you may slowly build up 8 your bankroll. While this strategy is considered low risk - keep in mind you can slowly whittle your balance away 8 with the low returns.

Medium Risk: Martingale

Arabic Roulette can also be played

using popular strategies like the Martingale. To use this 8 strategy, double your bet level on a loss. When you finally win, reduce your bet back to the default level. 8 The Martingale is popular due to its near 100% chance of success. But keep in mind that bet levels can 8 raise quickly - and table limits will eventually make the strategy ineffective.

High Risk: Reverse Martingale

A tweak of the original Martingale 8 system

that leads to a more high risk, high reward system. Instead of doubling on a loss, you double on 8 your wins. This can produce short bursts of significant profits. However, you

may eventually run into some bad luck which 8 will bring you back down to zero.
