Though he hoped to plot a path out of chaos, Macron's errors prolong a political crisis in France

Despite having made several appearances during the Olympic Games, Emmanuel Macron retreated to his large residence in the south of France during the Games. Since then, having called for a political truce while Paris hosted a spectacular sporting competition, the president hoped to chart a path to exit the autocracy created by his decision to call an early election in the middle of the summer.

Nothing happened. The Olympic athletes have long since departed, and the traditional *rentrée* of September is approaching. But no new government is in vigor - the longest hiatus since immediately after the second world war - and the bitter reign continues. This week, Mr. Macron used his presidential power to dismiss any candidate for prime minister proposed by the New Popular Front (NFP), the left-wing alliance that narrowly won the July election.

This was the last error in a tragicomic series of mistakes. No political formation has a majority in the Assembly, and a minority government from the NFP would have a difficult time surviving for long. But it would be the more democratically clean result. Instead, it seems that the president hopes to build a complacent coalition leaning to the right; one that, above all, will leave his unpopular reforms intact.

This will not be an easy task. Macron's presidency is now gravely compromised. Humiliated by Marine Le Pen's victory in the European elections of June, he hoped to restore his authority in the legislative elections by reuniting a "front republican" to check the extreme right. This strategy of rehabilitation was defeated by the unexpected success of the left. For ambitious conservative politicians, the prospect of linking their fortunes to a lame duck still proves to be tempting.

But it is not all about the president and his desires, or at least it should not be. With a combination of tactical subtlety, audacity and technocratic brilliance, Mr. Macron divided and governed French politics since 2017. But, indulging his characteristic desire to remain completely in control of events, even after losing, he is fighting against the interests of the country he leads.

The loss of confidence in politics has contributed to the rise of the extreme right in Europe, just as in France. In the face of this scenario, refusing to give the winners a chance to forge a consensus is imprudent and myopic. Mr. Macron justified his posture by equating the far right with the France Unbowed of Jean-Luc Mélenchon (LFI) and the Rassemblement National of Ms Le Pen. But, after repeatedly depending on a broad front republican, including the LFI, to keep Ms Le Pen out of power, this is clearly dishonest.

In the meantime, France is in limbo. Ms. Le Pen - whose eyes have always been on the 2027 presidential election - can afford to wait while the conventional political process unfolds. The prospect of government remains remote. The interim prime minister of Macron, Gabriel Attal, is currently working on a provisional budget for the autumn, which he admits could be ousted by his successor. His hubris, once again, led the president to this situation. A new humility in the sporting part will be necessary to get France out of this.
