Here's how to watch Barcelona vs.

Liverpool in the Champions League semi-finals tonight (8pm kickoff BST), live online and on TV around the world.

If all goes well, the Reds have five games left to play this season, and if all goes well, at the end of those five games Jordan Henderson will have lifted two trophies.

It will prove a significant challenge if that is to be the case, though, not least due to tonight's opposition, in the form of La Liga champions Barca.

Ernesto Valverde's side celebrated silverware after a 1-0 win over Levante on Saturday, and can now set their sights on Champions League glory having already wrapped up their domestic pursuit.

Speaking before the game, Jurgen Klopp acknowledged that Liverpool "won't be perfect" at the Nou Camp, but they will be required to be as close as they can be to take an advantage back to Anfield.

Will this be another famous European night for the Reds in Catalonia?

Winning is almost impossible unless a major mistake is made by your opponent. But, if your opponent starts on an edge that is not a corner, you can win. There is an exact science on how to win tic tac toe if this is the case: Put your first letter in the center.

Even tic-tac-toe has luck in it, at least it does when you are new to the game. Children just learning will try different moves somewhat at random until they get a sense of what they are doing. Once they figure out a successful strategy, the luck disappears and tic-tac-toe ceases to be fun.

## **Vida de Franz Kafka: la burocracia como tema y realidad en la vida del autor**

La palabra "kafkiano" se ha utilizado para describir la sensación de impotencia al enfrentar sistemas burocráticos; de perderse en trámites administrativos laberínticos, ser rechazado por funcionarios sin rostro y estrangular las esperanzas con burocracia excesiva.

Sin embargo, "kafkiano" no alcanza a describir la vida del hombre al que se debe el término, según una biografía irónica del autor nacido en Praga.

### **Mito y realidad de la vida de Kafka: un maestro de la burocracia**

En una serie de TV de seis partes para el canal alemán ARD, Franz Kafka no se muestra como víctima, sino como un maestro y experto en burocracia.

Como empleado del Instituto de Seguros de Accidentes Laborales del Reino de Bohemia, predecesor de la República Checa, Kafka -interpretado por el actor suizo Joel Basman- sobresale en su trabajo diario.

Aplasta a los abogados opositores en los tribunales de arbitraje, manejando hábilmente párrafos que definen la "clase de riesgo" de los telares industriales. "Si un caso se puede ganar, entonces Kafka lo va a ganar", entusiasma uno de sus superiores.

### **La visión de Kafka sobre la burocracia**

Para el novelista austríaco-alemán Daniel Kehlmann, quien escribió el guion de la serie, dirigida por David Schalko, Kafka fue uno de los primeros escritores del siglo XX en reconocer a la burocracia como un fenómeno de gravedad existencial.

Vio que nuestras vidas se estaban enmarañando en un sistema que ya no comprendíamos. Pero él lo comprendió porque era un burócrata él mismo".

### **La vida de Kafka y su visión de la burocracia**

## **Aspectos de la vida de Kafka Su visión en la literatura**

Experiencia en la burocracia      Exploración de la burocracia opresiva  
Relaciones interpersonales      Individuos sin poder frente a autoridades inaccesibles  
Trabajo como burócrata      Habilidad en navegar la burocracia

La visión de Kafka sobre la burocracia está presente en obras como "El Proceso" (1925) y "El Castillo" (1926), donde individuos desvalidos se enfrentan a autoridades inasequibles en sistemas laberínticos.
