Game Flow

Live Deutsches Roulette follows the standard European Roulette rules. The game features the spinning wheel that has been divided into 37 numbered segments, and you need to bet on which segment the ball will come to rest on.

There are two betting areas, a standard one and a Racetrack, as well as various shortcuts to place different kinds of bets. You need to place your chips on the relevant segments during the betting time and then the croupier will release the ball into the wheel. Once the ball has stopped, winning bets are paid out and you can place your chips for the next round.

Bets Explained

There are a huge number of different bets in Roulette. The game has been designed to allow for great flexibility when betting. The numbers do not run sequentially around the wheel and they have been coloured red and black, other than zero, which is green. Furthermore, the betting areas have a very specific layout. Thanks to this, in addition to individual numbers you can also bet on groups of numbers. The group may be numbers that share a characteristic, such as all the red or odd numbers, or it may be a group as formed by the layout of the betting areas.

appear on the roulette wheel. To decide which number/s appear, the wheel spins in one direction and a small ball is spun in the other direction by a croupier.

This

combination of opposing spins ensures that the croupier has no control over the outcome. Indeed, it's virtually impossible to predict where the ball is going to stop
