In sports betting, a double result bet is offered on the score of a game at both halftime and at the end of the game. This has become an increasingly popular betting option as opposed to simply betting on a team to win outright, which is a bet that can often have short odds.

When you place a double result bet, you are betting on two outcomes in one match with one stake. A double bet is a single betting option that combines the score of a game at half-time and the score at the end of the game. Assuming the half-time bet wins, the stake is then carried over to the second bet.
