"One day in poker is composed of 90% luck and 10% skill. One year in poker is composed of 10% luck and 90% skill".

Chris Ferguson, WSOP 2005 winner

Are you tired

of risking and losing money?

Do you like to have stable passive income without working from early morning to late evening?

Do you want to have more free time?

Imagine a

system that yields a profit 24 hours per day 7 days a week without your participation and without any risk!

Welcome to the Poker Automatics, a system that will change your life!

Any gambling can be divided into 2 types:

1) games, in which income is the result of good luck

2) games, where player's skill and experience increases prospects of winning

Poker belongs to the second kind.

That's not a secret that about 95% of all poker players lose money! And that's official statistics. It's especially true for beginners.

Reasons for losing are well known. Those are:

- lack of necessary experience and skills
- greed
- emotions
- fatigue
- passion

According to statistics, there are about 5% of winning players in online poker.

Stability is the main difference between a winning player and a fan.

There are many fans playing like professionals, but they lack stability.

They can win a huge sum, and then lose all their capital after receiving a series of bad cards.

Winning player is not the lucky one winning one or more times in a row.

Winning player is the one who earns regular poker income.

What are these 5% of winning players?

Those are professional players and poker bots.

Becoming a professional player means to dedicate your life to poker. That's the same work like many others.

Poker bots (deriving from 'robot') are programs that play poker by themselves without human intervention.

Maybe that would be new to someone, but we'll open you a secret:

Poker bots are used in all online poker rooms! And some of them are owned by poker rooms!

Some of them pretend to be players to make a crowd in not so popular poker rooms.

There are losing and winning bots.

If beginners come, lose all the money and leave, that's unprofitable to poker rooms. They need people to return to the poker table again and again.

Owners of poker rooms don't gain from loss of players; they have a sort of commission from every game played.

So, how to earn a stable income from poker just now?

There are several options:

Option 1:

You can play poker by yourself.

To become a professional player, you may need a few years of study and training, strong nerves, money for training + money for game, some of which will inevitably be lost during training.

Option 2:

You can find and buy poker bots from famous sites for R\$100 – R\$500 dollars, try to install them by yourself and risk your accounts.

All known bots

that are openly sold in the Internet are ineffective.

They've already been studied by poker rooms.

These bots don't bring stable income and are easily blocked by poker rooms because former don't have sufficient protection against detection.

You run a risk to be blocked without refund.

Option 3:

You can try to find a seller at private forums and buy a private bot. It will cost about R\$10,000-\$50,000.

It would be nice, if it'll be updated.

However, you would also need to keep the technical side in addition to the purchase.

One robot won't bring you great income. You will need a network of bots. If

you won't pay attention to this, there would always be a risk to be blocked and to lose all the money (if you only have one account).

One thing is when you lose your only account with all the money, and another thing is losing, for example, 1 in 200 accounts, while others compensate this loss in the shortest possible time.

You need to maintain and monitor the entire network of bots constantly. Otherwise, you won't earn success and profits.

And finally Option 4:

Create a free account and get stable passive income from online poker 24/7 with Poker Automatics.

Would you like to earn money from poker without being at the gambling table?

Imagine poker games which can't be lost!

Deal with your favorite things, spend time with family, travel and enjoy life.

And entrust money management to... robots!

Robots, which have been earning daily profit from online poker for more than 3 years.

Who could be better in poker than a professional player?

Those who don't have emotions, who aren't subjects to greed and gambling.

Unlike humans, robots don't get tired, don't make mistakes. They instantly calculate each opponent and don't rely on luck.

Poker isn't a game for them, just a routine job.

Imagine that a full network of robots is working for you! They have the same goal – to bring you money!

Poker Automatics is automatic system for gaining guaranteed passive income from online poker 24/7 without human participation.

HISTORY OF

POKER AUTOMATICS

About 9 years ago we started to develop private software for a poker game. Since then, we have been continuously testing and improving it.

Initially the

test was performed offline using purchased databases of already played poker hands; then we tested Play Chips at various online poker rooms.

Since 2011, our bots are

playing at online poker rooms for real money. First, there were micro stakes, but they gradually increased.

At the moment, our bots beat most online players at various limit and small no-limit poker tables.

From 2011 to 2014 all client accounts in Poker

Automatics has been maintained in manual mode.

All customer transactions have been

carried out manually by operators after clients have called support.

In May 2014 it was

decided to automate these processes and expand Poker Automatics.

Each Poker Automatics

client has its account balance (deposit + all profits from previous years) paid in full.

We've updated the site, created a new database, added new payment system, created an affiliate program and much more.

22 people from 6 different countries (United

Kingdom, China, Spain, Russia, Germany and the United States) are working in Poker Automatics.

Software is developed by the team of five: 3 programmers and 2 analysts.

Other 17 people maintain system and monitor its work.

Those are Head, 5

managers of Finance Department, 8 managers of Technical Department and 3 managers of Marketing and Help Desk.

Currently, our bots can be found at various stakes of almost all well-known online poker rooms:

888 Poker, PartyPoker, PokerStars, Microgaming

Network, Winning Poker Network, Ogame Network, iPoker Network, Merge Gaming Network.

What's the main feature of Poker Automatics?

That's the lack of human factors!

Robots have many advantages comparing to other players:

They instantly

calculate each opponent and odds at the poker table at any time
They accumulate statistics and hand history of every opponent, adjust to him and change their style of play
Unlike live players, bots don't make mistakes
They don't get tired
They don't have emotions
They aren't hot-tempered
We are constantly improving software, so our robots can't be detected and distinguished from conventional online players.
Number of robots in our network is constantly growing.
This makes possible to increase the total capital under their control, but not to increase the individual capital, so risks of each individual poker account are minimized.
We don't sell, distribute or open our software, so poker rooms can't learn the principles, tactics and behavior of our bots.
How can you benefit from Poker Automatics?
You get more free time to devote to your favorite things, you can spend time with family, travel and enjoy life
You increase your capital without making any effort. You gain profit from your investment without skills, without experience and without risks
A full network of poker bots is working for you 24 hours a day, 7 days a week
Your investments are securely protected
There are no longer any boundaries and restrictions for you, even if poker rooms don't welcome players from your country or laws of your country prohibit playing poker online
Your income is completely confidential
You receive a payment in any convenient way
You enter the number of those 5% of people gaining regular and stable poker income.
